

Global Criticism Hits Soviet Atom Testing

WASHINGTON (AP) — A U.S. study has found that the Soviet Union's renewal of atomic testing has caused the worst Soviet propaganda setback since Red tanks crushed the 1956 Hungarian revolt.

But the global criticism of the Kremlin has not been

matched by an equal upswing in pro-American sentiment. Asians and Near Easterners generally said in effect: "A plague on both your houses."

That assessment was issued yesterday by the U.S. Information Agency following a study of overseas press and radio commentaries on the Soviet resumption of nuclear tests Sept. 1.

Overseas critics protested both the threatened danger to the peace of the world and the threatened impairment of health to the world's population. USIA said.

The editorial comments went as might be expected in the West, where Moscow was almost uniformly attacked, and in Communist China, where the Soviet tests were praised as "a powerful inspiration to all the peoples striving for world peace."

In other areas where hundreds of millions of people take a more detached view of the East-West contest, USIA found these reactions:

Near East and South Asia—"Although the 'plague on both your houses' theme has been played generally, no evidence appeared in either the Pakistani or Indian press to indicate any acceptance of Soviet Premier Khrushchev's explanation for the resumption of testing.

Africa—"Although all African areas were shocked at the Soviet test resumption, their comments have been restrained."

Far East—"In Thailand, Taiwan (Formosa), South Korea, South Viet Nam, Japan and the Philippines, the Soviet Union was strongly denounced."

Latin America—"Less concerned about choosing sides than by the immediate consequences of the breach of the nuclear agreement, Latin-American editorials agreed in deploring the Soviet test resumption and saw it as political blackmail."

Baluba Tribesmen Threaten Peace In Rebel Province

ELISABETHVILLE, Katanga (AP)—Katanga's precarious peace was threatened yesterday by marauding bands of Baluba tribesmen from a big refugee camp and the vow of President Moise Tshombe to crush them by force.

Tshombe also accused the United Nations of breaking its day-old truce with his warriors and demanded that the United Nations evacuate its hardwon position at Elisabethville's post office.

From Leopoldville came threats that the central government of Premier Cyrille Adoula may strike out on its own to end the secession of Katanga, which the United Nations failed to accomplish. Adoula was reported to have used strong terms at a secret Parliament session in Leopoldville and afterward to have warned the United Nations that his government would now use its own resources in bringing Tshombe to heel.

Rampaging Balubas, camped only a mile from the heart of Elisabethville, spilled out through adjoining areas of the city, attacking whites and blacks.

Hat Societies

Members of the hat societies are requested to wear their hats to today's game. Hat society members will form an honor guard for the Penn State team both at the beginning of the game and at half time.

Van Zandt Interested In Governorship, Senate

WASHINGTON (AP) — Rep. James E. Van Zandt, R-Pa., said yesterday he is keenly interested in running for governor of Pennsylvania or for the Senate.

The Altoona congressman told a reporter that he has apprised Republican leaders of his sentiments and awaits their response.

ICC Bars Discrimination on Interstate Buses

WASHINGTON (AP) — The Interstate Commerce Commission yesterday barred racial discrimination on interstate buses or in their terminal facilities.

Acting on a petition filed May 29 by Atty. Gen. Robert F. Kennedy, the commission published rules which forbid interstate bus operators from segregating seating on the basis of race, color, creed or national origin and prohibit interstate buses from using terminals where waiting rooms, rest rooms, lunch counters and other facilities are segregated on such a basis.
