

U.S., Russia Remain Deadlocked in U.N.

UNITED NATIONS, N.Y. (AP) — With the Soviet Union and the United States deadlocked, smaller countries took the spotlight again yesterday in efforts to get agreement on a new stop-gap secretary-general for the United Nations.

It was stressed that the United States had not broken off the talks with the Soviet Union and might resume them at a later date.

10,000 Receive Europe Orders

WASHINGTON (AP) — Ten thousand more new regular Army and newly mobilized Air National Guard units were ordered to Europe yesterday to boost U.S. military strength in that crisis-clutched area.

The Defense Department announced that Secretary of Defense Robert S. McNamara, with President Kennedy's approval, had taken the new action to strengthen combat forces on guard against possible aggression by the Communists.

The deployment "will start immediately," the Pentagon said. Then it added more specifically that the 3rd Armored Cavalry Regiment would move to Europe "at an early date" and that 11 fighter squadrons and other elements of the Air National Guard, which already have been ordered to federal service effective next Saturday, would begin heading for Europe Nov. 1.

The announcement came coincidentally with the arrival at a European port of the first 500 of the 40,000 men who are being sent to West Germany to bring the 7th U.S. Army up to full combat effectiveness.

U. S. Officials Hit Red Berlin Protest

Washington (AP) — Communist East Germany "jumped the gun" in protesting against plans to send West German traffic policemen into West Berlin, the United States said yesterday, because no such move is being made, or is necessary.

Lincoln White, State Department press officer, said the Communists "are seeking to exploit propagandistically a development that has not occurred."

White said also the East German protest would not be accepted by the Western powers, who have never acknowledged such communications in the past. The Allies do not recognize the East German regime.

This bit of propaganda display in the battle over the future of Berlin came as Soviet Foreign Minister Andrei A. Gromyko arrived in Moscow from exploratory talks on the issue in London, New York and Washington.

Marx Trio Loses One

HOLLYWOOD (AP) — Chico Marx, oldest member of the famous Marx brothers who transfigured low comedy into high art, died yesterday at his home. He was 72.

Syria Offers Plan For Arab Unity

DAMASCUS, Syria (AP) — The newly independent government of Syria yesterday launched its own movement for uniting the Arab world.

Syria's military leaders revolted less than two weeks ago against the union with Egypt in the united Arab Republic as an experiment in unity that had gone sour for lack of "freedom and equality."

The Syrian substitute would be a "voluntary pan-Arab union on a constitutional, decentralized basis" and would be known as the United Arab States.

Provisional Premier Mamoun Kuzbari read out on Damascus radio a formal call to all Arab governments in North Africa and the Middle East to summon their legislative bodies to consider the 14-point proposal.

The plan, sponsored by the provisional government and the army revolutionary command which successfully tore Syria from the short-lived union with Egypt, likely will be presented at a meeting of the Arab League. This will be the first meeting which Syria will attend in renewed independence.

Informants said the main issue is whether the man to take the interim secretary-generalship should commit himself publicly in advance to choose certain under-secretaries as principal advisers and consult them in his daily work.

The Russians think that he should and the Americans that he should not. Diplomats, informed on the negotiations, said the positions are like this:

Both big powers would accept U Thant of Burma for interim secretary-general up to April 1963.

They agree he should have five principal advisers and four of them should be an American, a Russian, an African and a Latin American.

But the Soviet Union wants the fifth to be an Eastern European, the United States wants him to be a Western European and the Western European group of U. N. delegation agree.

The United States is willing to have the interim secretary-general make a statement that he intends to invite five under-secretaries to act as his principal advisers and intends to work with them.

But the United States insists that he should not make such a statement until he has been recommended for the job by the Security Council or confirmed in it by the General Assembly.

The Soviet Union insists that he should make it even before his name is submitted to the Security Council.

BULLETIN
DETROIT (AP) — Ford Motor Co. and the United Auto Workers union agreed last night on a new three-year contract after a nine-day nationwide strike which idled 120,000 production workers.
The contract will be presented to the 180-member Ford National Council for approval at a meeting this afternoon.

Soviets Create 'Big Lamp'
MOSCOW (AP) — Soviet scientists have created an electric lamp that can illuminate 247 acres, Tass reported yesterday. The news agency said the lamp is so powerful that when hung at a height of 600 to 800 feet it would bring "uniform light to cities of the future" and can already be used for lighting construction sites, transport junctions, exhibition areas and sports events.
