

Simple 'Tools' To Aid Corps In Philippines

A felt cloth to use as a "felt-board" and a set of colored paper symbols are a few of the simple tools which could be useful in teaching English in the Philippines.

Valerie Komives, staff member at the International Institute in Detroit, Mich., told the 64 Peace Corps volunteers training here for the Philippines that these materials and a half-dozen selected books on English would aid volunteers in their Peace Corps teaching assignments in the islands.

The felt cloth with a stiff backing and two broomsticks to hold it up could be used as a visual aid to demonstrate ideas in the classroom, she said.

The set of colored symbols representing the parts of speech may be used "to demonstrate the basic patterns of English and the basic patterns of Tagalog (the national language in the Philippines)," she said.

English is the most common language in the Philippines although it is not the national language. It is used in the classroom from third grade on.

By law the government provides schooling for all children from 7 to 13 years of age. But many drop out in the third and fourth grades because they have not learned English well enough to comprehend the teacher who conducts all classes in English.

The Peace Corps volunteers will serve as teachers aides and models for the English language in the rural elementary schools.

Parties Release Recess Statement

Dennis Eisman, Campus party chairman, Al Sharp, Liberal party chairman, and Elliot Newman, acting chairman of University party, collaborated yesterday in drawing up the following statement concerning the Thanksgiving vacation issue:

"We all agree that the Thanksgiving Vacation issue should not be handled in a political manner. All efforts of Dennis Fojanini, SGA president, in achieving a vacation for the student body will be mutually supported by our parties.

"We urge the students to demonstrate their feelings on this matter at the regional televised Penn State-Syracuse game, Saturday. The pep rally would also be a good time to let the administration know how we feel about a vacation."

Lattman Will Address Local Reserve Officers

Dr. Laurence H. Lattman, associate professor of geomorphology, will address a dinner meeting of the Centre County chapter, Reserve Officers Association, at 5:30 p.m. tomorrow at the VFW Home in State College.

His subject will be: "New Developments in Photogrammetry."

Quality is the key to success at Western Electric

Admittedly, our standards are high at Western Electric. But engineering graduates who can meet them, and who decide to join us, will begin their careers at one of the best times in the history of the company. For plentiful opportunities await them in both engineering and management.

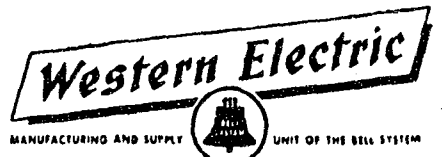

As we enter a new era of communications, Western Electric engineers are carrying forward assignments that affect the whole art of telephony from electronic devices to high-speed sound transmission. And, in the management category alone, several thousand supervisory jobs will be available to W.E. people within the next 10 years. Many of these new managers will come from the class of '62.

Now's the time for you to start thinking seriously about the general work area that interests you at Western Electric, the manufacturing and supply unit of the Bell Telephone System. Then when our representative comes to your campus, you'll be prepared to discuss career directions that will help make the interview profitable.

After a man joins Western Electric, he will

find many programs that will aid him in exploring the exciting course of his career — while advancing just as fast as his abilities allow. And he'll be secure in the knowledge that he is growing with a company dedicated to helping America set the pace in improving communications for a rapidly growing world.

Challenging opportunities exist now at Western Electric for electrical, mechanical, industrial, and chemical engineers, as well as physical science, liberal arts, and business majors. All qualified applicants will receive careful consideration for employment without regard to race, creed, color or national origin. For more information about Western Electric, write College Relations, Western Electric Company, Room 6106, 222 Broadway, New York 38, New York. And be sure to arrange for a Western Electric interview when our college representatives visit your campus.

Principal manufacturing locations at Chicago, Ill.; Kearny, N. J.; Baltimore, Md.; Indianapolis, Ind.; Allentown and Laureldale, Pa.; Winston-Salem, N. C.; Buffalo, N. Y.; North Andover, Mass.; Omaha, Neb.; Kansas City, Mo.; Columbus, Ohio; Oklahoma City, Okla.; Engineering Research Center, Princeton, N. J. Teletype Corporation, Skokie, Ill., and Little Rock, Ark. Also Western Electric distribution centers in 33 cities and installation headquarters in 16 cities. General headquarters: 195 Broadway, New York 7, N. Y.
