

Cold Wave Expected To Hit Area Today

By JOEL MYERS

A cold wave is expected to sweep across Pennsylvania today bringing a pronounced drop in temperature. Readings should fall steadily today, and a hard freeze is indicated for tonight.

Rain, which was predicted for late last night, should end this morning. A few snow flurries are possible this afternoon or this evening.

Aid Office Plans Job Placement For Christmas

Students can now apply for Christmas jobs at home directly through the Office of Student Aid, Ralph N. Krecker, director, said Wednesday.

He said that final arrangements have just been completed with the state employment agency to provide this service. This is the first time that the University has provided this service.

He explained that interested students should fill out and return the information cards provided by his office, 218 Willard. On this card, the student should state his job preferences and qualifications. The card will then be channeled through the local office in the student's home town. Krecker said, where it will be sent to the appropriate employer.

The greatest single source of employees, he said, will be the post offices. But retail merchants will also be hiring college students over Christmas, he added.

He said that Penn State students have an advantage over most college students applying for these jobs in that their vacation begins earlier and lasts longer. There can be no guarantee that the student will get the particular job for which he applies, Krecker said. Interested students should act early, he added, to be sure of the best chance.

The service was arranged with the permission of John Clark, state director of the Pennsylvania State Employment Service.

Bike Incidents Increase Due to EST—Pelton

The number of "near accidents" involving bicycles at night without lights has increased as a result of Eastern Standard Time, Col. William C. Pelton, director of security, said Wednesday.

"We're going to stop bicycles without lights from now on," he said. "This is for the student's own safety." The number of calls concerning incidents of near accidents with bicycles at night has increased from one or two a week to four or more a night since Sunday, when Eastern Standard Time went into effect, Pelton said.

Fall Alum College To Open Nov. 9

Thirty seniors have been invited to attend the annual Fall Alumni College Thursday, Friday and Saturday at the Nittany Lion Inn, Ralph W. Condee, associate director of the center for continuing liberal education, said yesterday.

The Alumni College is the agency through which the University offers a program of continuing liberal education to its alumni, Condee said. The theme of this year's session will be "Basic Science; Its Goal and Methods," he said.

Seniors interested in attending the Alumni College dinner and lecture and discussion sessions may sign up at the Hetzel Union desk before Tuesday. The first 30 to sign will be accepted, Condee said. There will be no charge.

The Alumni College program is designed to bridge the gap in communications between the interested layman and the scientific specialist.

The speakers for the fall program were chosen for their ability to explain their work in general and non-technical terms and for their scientific achievements, Condee said.

The speakers are Peter S. Signell, assistant professor of physics; Edwin W. Mueller, research professor of physics; Ernest C. Pollard, professor of biophysics; Norman C. Deno, professor of chemistry and James E. Wright, professor of genetics.

These professors will speak on the frontiers of science today, kinds of experiments and why they are crucial and the insights a scientist can give into our world.

Phi Delt Penalty--

(Continued from page one) burgh; and David McKean, junior in mechanical engineering from Erie.

The four will also have their case reviewed by Off-Campus Tribunal Monday night, Leasure said.

The theft of the chairs, which were removed from Beam and Thompson Halls, took place during September, 1960. The students were apprehended after maintenance personnel at the Metzger Building, where Boyer, McCombs and McKean reside, discovered that light bulbs were missing.

A search of the building by State College police uncovered an institutional lounge type chair in the men's apartment. Its identity was admitted by the trio and Campbell was later implicated.

Occasional rain is predicted for this afternoon's football game between Penn State and the University of Maryland at College Park, Md.

This afternoon's temperatures will average nearly 35 degrees below those recorded yesterday afternoon. The moist tropical air that covered Pennsylvania yesterday originated over tropical waters, and temperatures approached record levels throughout the state.

High readings were mostly in the 70's and low 80's. A high of 74 degrees was observed at the University weather station.

The arctic mass that will cause the sharp change to colder weather in this area today overspread the central part of the nation yesterday. It was accompanied by strong winds, snow and rapidly falling temperatures.

Heavy snow squalls may develop in portions of northwestern Pennsylvania today and tonight, and several inches could accumulate in the higher mountains.

The local forecast indicates today should be mostly cloudy, windy and much colder with rain ending this morning and possible snow flurries during the afternoon.

Partial clearing, diminishing winds and colder weather is indicated for tonight. A low of 27 is expected.

Tomorrow should be partly cloudy and cold with a high of 47.

uly Thursday. A debate on whether the report "showed cause" as the military instruction committee of the Senate had suggested took place at the meeting.

Richard C. Maloney, associate dean of the college, said that the report did not in fact show cause for the abandonment of compulsory ROTC.

ROTC and Public Service committee members Wallace R. Brewster and Warren S. Smith, supported the proposal. Both men said that the 5-page report showed cause for doing away with compulsory ROTC in the college.

SPECIAL COMPLIMENTARY OFFER FOR COLLEGE MEN

Learn the Pleasures of Fine Tobacco . . .

Enjoy the Original Extra-Mild Cavendish in the Handy "Poly" Pocket Pouch

AMPHORA, is cool, even-burning, long-lasting. Its pleasurable smoking qualities have won loyal friends—it outsells all other tobaccos in its class! If you haven't tried AMPHORA, be our guest. Simply fill in the coupon below and mail it. You will receive a complimentary full 2-ounce pouch.

ROMICK'S INTERNATIONAL TOBACCO CO.
11918 Voss Street, North Hollywood, California

Gentlemen: Please send me a complimentary full 2-ounce pouch of AMPHORA. I enclose 10¢ coin to cover cost of handling and mailing. (PLEASE TYPE OR PRINT)

WYOMISSING—Final registration totals at the Wyomissing Center indicate a 76 per cent increase in enrollment.

Greatest increases occurred in the drafting and design technology and electrical technology curricula, which grew from 43 to 80 students, and from 114 to 176 students respectively over last year.

A total of 436 persons in the Reading-Berks County area are enrolled in at least one evening or daytime class at the center.

Five new members have been elected to the Wyomissing Student Government Association. New representatives are Thomas Petro and Donald Williams in chemical technology; Larry Knorr in drafting and design technology; and John Chinnici and Thomas Witman in electrical technology.

YORK — Freshman SGA elections have been completed; the seven winners were elected from a field of 17 candidates. Paul Whittle, in electrical technology, was elected SGA vice president; and Richard Dietz, in drafting and design technology, was elected security. The new frosh representatives to SGA are Robert Benko, Gary Schwenk, Albert Bishop, Richard Bennett and Donald Raw.

ERIE — A total of 289 undergraduates have registered at Erie's Behrend Campus, including 180

in baccalaureate degree curricula. In addition, 63 area engineers and teachers are taking graduate courses in the evening.

The annual Behrend homecoming was held Oct. 7. Carol Page, freshman in liberal arts, was crowned homecoming queen. A soccer game with Grove City College found Behrend on the short end of a 4-0 score.

Alan McAllister was recently elected president of the Behrend SGA. The other officers are Dale Black, vice president; Sally Woolworth, recording secretary; Helen Rovegno, corresponding secretary; and Jerry McMahon, treasurer.

DUBOIS — A series of one-act plays, highlighted by Eugene O'Neill's "Where the Cross Is Made," will be presented Nov. 10 on the Dubois Campus stage. The other presentations will be "The Valiant" and a scene from "Anastasia."

The productions are being directed by Miss Janette Burns.

Basketball practice at DuBois began Wednesday. The Dukes open the season Dec. 2, at the Behrend Campus.

ALLENTOWN — Chris Hampton and Gerald McNeeley have been elected vice president and secretary respectively of the Allentown Center SGA. A native of London, England, Hampton came to this country in 1952. McNeeley is a graduate of Liberty High School, Bethlehem.
