

# Theta Delta Chi Nips IM Champions

By JOE GRATA  
Theta Delta Chi threw Fraternity League A into mass confusion last night when it upended defending champion Delta Sigma Phi, 5-2 on first downs, on the Golf Course Fields.

The win gave Theta Delta Chi a 3-1 record and a tie for the league lead with Delta Theta Sigma and Phi Sigma Kappa. Tonight Theta Delta Chi and Phi Sigma Kappa will clash head-on, while Delta Theta Sigma meets

Alpha Gamma Rho in an attempt to determine the league champion. If a playoff game is necessary, Inframural Director Dutch Sykes said that it will be scheduled for tomorrow evening.

Theta Delta Chi completely dominated their win over last year's champs. At halftime they led by a 2-0 first down margin. Jim Baker, a senior from Monessen, Pa., stood out for the winners with his superb passing.

Near the beginning of the second half, Dick Cunningham missed a 16-yard field goal to miff what proved to be Delta Sig's best op-

portunity for a score. The kick, on an angle to the right, fell short.

After the missed field goal Theta Delta Chi marched 48 yards behind the passing of Baker before being halted. On fourth down Baker attempted a field goal but it went wide to the left.

In other fraternity playoff action, Delta Tau Delta nipped Alpha Tau Omega by a 7-0 margin. Dave Dana was the standout for Delta Tau Delta when he caught a Pete Land-

man pass for a touchdown and kicked the extra point.

Theta Xi defeated Phi Mu Delta 10-6, to cop its league title and move into playoff action this week. Ralph Griner intercepted a Ken McCall pass and returned it seven yards for the first Theta Xi score. Marlin Biesecker kicked the decisive extra point and later added a field goal.

Kappa Sigma stretched its record to 5-0 by downing Acacia 18-0, to take its league laurels. Dave Mairz threw all three touchdown passes — two to Larry Dodds a 38-yarder to Dave Antenucci.

In other action, Tau Kappa

Epsilon downed Sigma Chi 7-0; Phi Kappa Psi trounced Alpha Chi Rho, 13-0; Millin topped Cumberland, 12-6; Washington beat Chester, 7-0; Clearfield nipped Northumberland, 7-0; Birch trounced Erie, 14-0; and the Untouchables edged Ennyl's on first downs, 1-0.

Sykes announced that rainouts will be made up tonight, with the first round of eliminations for the championship to begin tomorrow.

Sykes also said that no more games will be held at the Beaver Stadium fields, and tentative plans have the championship games scheduled for Sunday afternoon.

## You have (or will have) your Ph.D. or Master's Degree

If you are interested in the rewarding challenge of vital research and development work with a leader in the Space Age sciences.

If you are looking for a company where the scien-

tist or engineer finds his way of work and the importance of his contributions are fully respected.

If you are experienced and/or interested in one of the many technical disciplines listed below.

**YOU MAY FIND THAT A MOVE TO MARTIN WILL BE A MOVE UP IN YOUR CAREER . . . A MOVE AHEAD TOWARD SIGNIFICANT ACCOMPLISHMENT**

*Here are areas of important Martin positions for ENGINEERS and SCIENTISTS with advanced degrees:*

### RESEARCH DEPARTMENT

Openings in basic and applied research for:  
**SOLID STATE METALLURGISTS**  
**PHYSICAL CHEMISTS** (For high-temperature chemical reactions, both organic and inorganic).  
**PLASMA PHYSICISTS** (For experimental research. Electromagnetic background necessary).  
**AERO-PHYSICISTS** (For research with hypervelocity fluid mechanisms).

### LIFE SCIENCES

**BIO-PHYSICISTS**  
**PSYCHOLOGISTS** (Experienced in systems analysis).  
**BIO-CHEMISTS** (With background in chemical synthesis).  
**INDUSTRIAL DESIGNERS**

### STRUCTURES & MATERIALS

**ANALYTICAL AND CONCEPTUAL DESIGN**  
 In Applied Mechanics, Physics, Mathematics, Aeronautical Engineering or Civil Engineering. Should be experienced in structural analysis and design on high-temperature structures and have background in elasticity, plasticity or dynamics.

**CHEMICALS AND MATERIALS**  
 Physical Chemists experienced in high-temperature reactions.

**TEST AND INSTRUMENTATION**  
 Experimental Physicist with experience in Spectroscopy.

### ELECTRONICS DIVISION—RESEARCH & DEVELOPMENT

**SENIOR SCIENTISTS for ELECTRONICS RESEARCH (Solid State)** in the following areas:  
 HIGH TEMPERATURE CERAMICS • MICRO-WAVE ELECTRONICS AND SEMI-CONDUCTORS • CRYOGENICS • MATERIALS RESEARCH (Physical Chemistry) • MASERS, LASERS AND OPTICS

**ELECTRICAL ENGINEERS**  
 Experienced and/or interested in guidance and navigation and automatic controls.

### PROPULSION SYSTEMS

**AERO-PHYSICISTS**  
 Openings for Aero-Physicists with a variety of technical disciplines—including fluid mechanics, applied numerical methods as used in partial differential equation solutions, measurements, physical chemistry in high-temperature gas dynamics.

**PHYSICISTS**  
 Experienced and/or interested in design and development of electrical propulsion systems and energy conversion.

**MECHANICAL ENGINEERS**  
 With experience and/or interest in the fields of advanced spacecraft propulsion systems, high temperature—high velocity flow analysis, thermodynamics, hydrodynamics, analytical and conceptual design of propulsion systems, fluid dynamics of multi-phased gases.

**ON-CAMPUS INTERVIEWS**  
**November 7, 8**

Please contact your College Placement Officer for appointment

**MARTIN**  
 BALTIMORE
