

# Controversial Play Knocks Cowards From Unbeaten Ranks

It's Syracuse and Notre Dame all over. Saturday's big battle between the Collegian Cowards and the Pitt News Staff is now history, but the circumstances surrounding the game will be hashed around football circles for weeks to come.

Pitt won the fourth annual game 13-12 on a controversial play in the mud and slush at Schenley Oval. The victory marked the first loss in the series for the Cowards, and all but killed their chances for a post-season bowl.

Twice in the contest the Cowards held the lead, but each time the Pitt News roared back. And it was a disputed call on the last Panther touchdown that spelled doom for John Black and Co.

Midway through the first quarter, the Cowards struck for the first score of the game. Chugging down the field, the Cowards moved 53 yards in 10 plays, with the score coming on a 3-yard pass from "Paw" Black to Jim "Garbage Mouth" Bukata. Black's pass attempt for the extra point was off.

Jim O'Brien quickly brought the Pitt News into the game by tossing a 73-yard pass to Mike Ditka to tie the score. Ditka, on loan from the Chicago Bears, performed admirably, although the Cowards did defense him well.

Early in the third quarter, the Cowards moved ahead on a spectacular 43-yard pass play. Black rolled to his left, avoided the grasps of three Pitt linemen and heaved a bullet pass downfield. John "The Bomb" Beauge arrived on the scene, made an unbelievable one-handed catch, and rambled the

distance for the score. Black, figuring that the game was in the bag, threw the PAT away.

Then came the play that spelled doom for the Cowards. Black's long kickoff was gathered in on

the goaline by Arnie Sowell. He started upfield and rambled to the Pitt 40-yard line where he fell. Thinking the play dead, the Cowards stared in amazement when Sowell jumped up and ran the remaining distance for the score.

Head coach Karen Hyneckal protested meekly to the Pitt News staff and to the Pitt News referees, but all was in vain. Hyneckal, however, did announce that she is flying to Boston today to lodge a protest with the ECNW

(Eastern Conference of Newspaper Writers).

Before the Cowards had another chance to get a drive rolling time ran out, and the Cowards had been knocked from the ranks of the unbeaten.

## COLLEGIAN CLASSIFIEDS

**FOR SALE**  
 BANJOS, UKES, Guitars, Pianos, Hammond Organs, Strings, Books, all music supplies. Pifer Music Centers, Benser Pike. Open 'til 8 p.m. daily except Weds. Phone EL 5-3441.

Bright futures in data transmission at W. E.

New engineers with initiative who can meet Western Electric's high standards are offered many exciting career opportunities with our company in data processing development work as it relates to communications.

For example, Western's engineers—working closely with Bell Telephone Laboratories—have solved development and manufacturing problems connected with the Bell System's new DATA-PHONE Data set (made by Western Electric). DATA-PHONE service lets business machines, such as computers, "speak" to each other in a language of numbers and symbols over existing telephone communication networks. This represents a tremendous boon to business; and consequently, it is estimated that some day there may be more machine talk than people talk using telephone lines.

Of course, data communications is only one of many rewarding career areas that await you at Western Electric. Here are just a few of the others: electronic switching... solid state electronic devices... microwave radio relay... computer-programmed production lines... solar cells... optical masters... futuristic telephones.

We need high-caliber, forward-thinking engineers now to help us transform these plans into realities or to work with us in scores of other key communications areas. Your future, the future of Western Electric, and the future of America's communications—could well depend on your first career connection.

Challenging opportunities exist now at Western Electric for electrical, mechanical, industrial, and chemical engineers, as well as physical science, liberal arts, and business majors. All qualified applicants will receive careful consideration for employment without regard to race, creed, color or national origin. For more information about Western Electric, write College Relations, Western Electric Company, Room 6106, 222 Broadway, New York 38, New York. And be sure to arrange for a Western Electric interview when our college representatives visit your campus.

Principal manufacturing locations at Chicago, Ill.; Kearny, N. J.; Baltimore, Md.; Indianapolis, Ind.; Allentown and Laureldale, Pa.; Winston-Salem, N. C.; Buffalo, N. Y.; North Andover, Mass.; Omaha, Neb.; Kansas City, Mo.; Columbus, Ohio; Oklahoma City, Okla.; Engineering Research Center, Princeton, N. J.; Teletype Corporation, Skokie, Ill.; and Little Rock, Ark. Also Western Electric distribution centers in 33 cities and installation headquarters in 16 cities. General headquarters: 195 Broadway, New York 7, N. Y.
