

Army Hands State First Rifle Setback

By FRANK QUIGLEY

Army handed the Penn State rifle team its first setback of the year Saturday at the Rec Hall rifle range. West Point fired a 1432 to top Penn State's 1424 and Villanova's 1399.

The match was fired in three positions, prone, kneeling, and standing, with a score of 300 being perfect. Ten men from each team fired with the five best scores from each team being used as the team total.

The lead seasawed back and forth between Army and Penn State for most of the match. Ed Parter and Bill King, both of Army, fired 289 and 288, respectively, to clinch the match for Army. King's 288 was highlighted by a '96 in the standing position. Anything over 90 is considered excellent in this position. Penn State was again led by

Capt. Richard Gogolkiewicz's score of 288. Other Lion scores were Bill Shaffer, 286, Leslie Parmele, 285, Bill Kipple, 285, and Walter Estep, 280. Top scorer for Villanova was Nick Garigliano, 285.

The victory over Villanova and the loss to Army gives State a record of 7-1 with several matches remaining.

This is the best slate recorded by the rifle team at this point in the season in its three years of varsity rifle competition.

State's next match will be with Maryland at College Park, Saturday.

Rifle Summary	
Penn State	Total 1424
Parmele	285
Estep	280
Gogolkiewicz	288
Shaffer	286
Kipple	285
Team Total	1424
Army	Total 1432
Solomon	286
Dille	287
Brown	286
Parter	289
King	288
Team Total	1432
Villanova	Total 1399
Adams	282
Gavatalo	274
Clancy	276
Garigliano	285
Nolan	281
Team Total	1399

Track Coaches Request NCAA To Fight AAU

CHICAGO (AP) — The National Collegiate Athletic Association, opening its 56th annual convention, yesterday was asked by its track coaches to take the initiative in formation of a new United States Track and Field Federation.

The petition, forwarded to NCAA executive director Walter Byers, was another collegiate blow at the long established Amateur Athletic Union (AAU), which has been under fire by the collegiate forces for some time.

Byers, pointing out that the NCAA already has directed the special committee to form a national basketball federation, said the track coaches' proposal will go on the convention floor Friday. It is expected the NCAA's policy-making council will approve the track revolt against the AAU just as it did the basketball bolt.

Wintry storms slowed the start of the convention, causing many late arrivals of 2,200 representatives of colleges and universities attending the week-long meetings of the NCAA and eight affiliated national groups.

Werner Answers Charges

Penn State track coach Chick Werner answered yesterday the charges made by National Amateur Athletic Union president Louis J. Fisher that a group headed by Werner was attempting to prevent the nation's top athletes from competing in meets scheduled against Russia next summer.

Werner, president of the Track Coaches Association, called Fisher's charges "premature," but maintained that the possibility of conflicting track meets does exist.

Fisher charged Saturday that the college group, headed by Werner, is planning to schedule a track and field meet June 22 and 23, the same dates as the tryouts for the team that will oppose Russia in July.

"THE POSSIBILITY that it (the scheduling) will happen exists," Werner said. "The AAU has been dictating to high schools and colleges for 45 years. We are either going to get a share in the policy-making," Werner warned, "or we'll go on without them."

The AAU and the National Collegiate Athletic Association have been battling over the control of amateur athletics in the United States, including the Olympic program.

Werner is en route to Chicago today, where he will address the Executive Committee of the NCAA tomorrow and Friday and will meet with the Track Coaches Association Friday through Sunday. —John Morris

McClendon Inks LSU Contract

BATON ROUGE, La. (AP) — Curly-haired Charley McClendon, 38, the creative genius behind Louisiana State's unyielding defenses, yesterday succeeded Paul Dietzel as head football coach of the Bayou Bengals.

"The boys are crazy about him, they're devoted to him," said Percy Roberts, a member of the LSU board of supervisors.

The chunky McClendon, first assistant to Dietzel, long was believed to be the man behind the scenes in LSU's gridiron success. He is a native of Lewisville, Ark.

Athletic director Jim Corbett, who had been given the green light to find a new head coach, acted with lightning speed. Dietzel, 37, asked for release on his contract only last Friday to take the head coaching job at the U.S. Military Academy.

McClendon had just returned from a weekend interview with Kentucky officials, who are searching for someone to replace the ousted Blanton Collier.

McClendon was given a four-year contract at \$18,000 a year.

PIONEERING

Somewhere out there, beyond the realm of man's present understanding, lies an idea. A concept. A truth.

Gradually, as it comes under the concentration of disciplined minds, it will become clear, refined, mastered. This is the lonely art of pioneering.

In the Bell System, pioneering often results in major breakthroughs. Planning the use of satellites as vehicles for world-wide communications is one. Another is the Optical Gas Maser, an invention which may allow a controlled beam of light to carry vast numbers of telephone calls, TV shows, and data messages.

Breakthroughs like these will one day bring exciting new telephone and communications service to you. The responsibility of providing these services will be in the hands of the people who work for your local telephone company. Among them are the engineering, administrative and operations personnel who make your telephone service the finest in the world.
