

Stevenson Asks Congress For U.N. Bond Purchase

WASHINGTON (AP)—Adlai E. Stevenson strongly endorsed yesterday purchase of half a \$200-million United Nations bond issue. He pictured it as a move bolstering United States security and strengthening an institution he said had blunted Communist thrusts in Asia and Africa.

The U.S. ambassador to the United Nations, expressing confidence of repayment, told senators installments returned could be applied toward meeting annual U.S. assessments.

EVEN IF THE United States had to give instead of lend the \$100 million "it would be worth the cost many times over" to keep the United Nations alive, he said, and added:

"If the United Nations, even in its present imperfect form, were ever substracted from the arsenal of our diplomacy, I think many times its cost in dollars would then have to be added to our defense arsenal. Nor do I care to contemplate the possible loss of life in avoidable conflict."

STEVENSON TESTIFIED before the Senate Foreign Relations Committee for nearly 3 1/2 hours on President Kennedy's case for helping the United Nations liquidate a deficit stemming largely from its Congo operations. Soviet-bloc members have refused to pay their share of supporting troops there.

He rattled off a list of what he considered U.N. successes, particularly use of U.N. troops to establish a unified, independent Congo.

JFK Backs McNamara In Censorship Question

WASHINGTON (AP) — In the face of an impending showdown today President Kennedy vigorously backed Secretary of Defense Robert S. McNamara yesterday in his refusal to disclose which Pentagon censors altered specific speeches by military men.

Kennedy told his news conference neither he nor McNamara "can agree to a harassment of individuals who are only carrying out the policies dictated by their superiors."

If necessary to keep the censors from being put on the spot by the Senate subcommittee investigating Pentagon censorship, the President said, he

John F. Kennedy

will invoke "executive privilege."

The chief executive's entry into the deadlocked dispute came a few hours after the Armed Services Subcommittee voted to force a showdown today by insisting that the Pentagon's top censor give a name he balked at providing last week.

Kennedy stressed that he thought McNamara had been "extremely cooperative" with the subcommittee.

April Draft Call Issued

HARRISBURG (AP)—State selective service headquarters recently issued an April draft call for 389 men.

'Doomsday' Brings Liberty

KATAMANDU, Nepal (AP) — Prison guards at Palpa in western Nepal were so preoccupied with astrologers' predictions for doomsday this week that they allowed security to lapse.

About 100 prisoners thanked their stars and made a dash for freedom, reports from the town said yesterday. Two of the prisoners were shot, some captured, but 75 are still at liberty.

Hugh Scott Boosted For Governorship

PHILADELPHIA (AP)—An effort to draft U.S. Sen. Hugh Scott as the Republican Party's candidate for governor was promoted strongly yesterday by Pennsylvania's national GOP committee men and others.

Dr. Robert L. Johnson, neutral in the party's political in-fighting up to now, said he is "convinced that Sen. Scott, representing the hopes and ideals of a positive, forward-looking Republican Party, is the only candidate presently available who can make Republican victory in November certain."

USW to Demand More Security In Coming Contract Negotiations

PITTSBURGH (AP)—The United Steelworkers Union said yesterday it will press for substantially greater job security and expanded unemployment benefits in contract negotiations with the basic steel industry.

The contract proposals were drawn up by the union's 34-member executive board Monday and Tuesday and were approved by the 170-man Wage Policy Committee yesterday.

At the same time, the union and 11 major steel companies announced jointly that contract negotiations will start next Wednesday in Pittsburgh.

The union said it will demand:

of unemployment benefits for workers not given the opportunity to work a full week.

Substantial improvements in the seniority systems to assure that veteran employees are not laid off while younger ones are working.

Programs for training and retraining employees so they will be able to qualify for available jobs.

Limitations on overtime work while qualified employees are laid off.

Periodic extended vacations for long-service employees and lengthening of regular vacations.

Higher wages. Basic wages now range from \$2.28 1/2 to \$4.38 1/2 an hour.

Soviets Charge Invasion of Cuba

The Soviet Union charged yesterday and drew a quick U.S. denial — that the United States is planning to invade Cuba this month.

Soviet Delegate Valerian A. Zorin told the General Assembly's Political Committee his country would give Cuba "all necessary assistance."

U.S. Delegate Francis T. P. Plimpton scoffed at the Soviet charge. He said the only threat to Cuban Prime Minister Fidel

Castro's "dictatorship is the longing of the Cuban people for freedom."

He added that the only threat to peace in the Western Hemisphere was Castro meddling in other American republics to "overthrow their free institutions by outside force."

The U.S.-Soviet clash was the second since Monday in debate in the 104-nation committee on a Cuban complaint that the United States is preparing for new aggressive acts against Cuba.

INTERNATIONAL FILMS COMMITTEE PRESENTS

"The Maltese Falcon"

plus

"Japanese Calligraphy"

The International Film Series has, on occasion, tried to present the finest of American made films. This week's film, **THE MALTESE FALCON**, is directed and written for the screen by one of America's finest directors, John Huston. The film is based upon the famous mystery thriller of Dashiell Hammett. To say any more of the "story" would be revelatory, and, in this case, detract from the vibrance of the film. It stars Peter Lorre, Sidney Greenstreet, and Humphrey Bogart.

The film can present the nature and beauty of many things. It can serve as a documentary agent to portray the beauties of an art object. Such is the function of this short subject entitled **JAPANESE CALLIGRAPHY**. Made in France, this engrossing film brings abstract Western art face to face with the aesthetics of Japan which, in its calligraphy, has been modern for more than ten centuries. The New York Times called this film "A simple, sensitive and engrossing documentary on an ancient art."
