100 Juniors, Seniors To Receive Scholarships

One hundred Faculty Aide Scholarships of \$100 each will be awarded to outstanding junior and senior students for the 1962 summer term. Ralph N. Kreckler, director of Student Aid, said recently.

The Faculty Aide Scholarship program was initiated by President Eric A. Walker last year to aid outstanding students in acquiring additional funds needed for the summer term. It is also intended to help them gain valuable experience through work in their specialized fields in close association with a member of the faculty.

To be eligible, a student must be an outstanding junior or senior in any curriculum, who has been nominated by a member of the faculty to work under his direction. Each recipient must be enrolled for the summer term with a full credit load of courses.

THE SCHOLARSHIP will require that each student devote approximately 50 hours during the summer term to duties assigned by his faculty member. The amount of the scholarship will be paid in full upon satisfactory completion of duties at the end of the term.

Students interested in receiving the scholarships should contact their respective department heads or professors in their major field of study.

Any member of the faculty who is scheduled by his college for full-time teaching and/or re-

search responsibilities for the summer term may make a nomination. The faculty member may secure applications for a nomination at the Office of Student Aid, 218 Willard or from the office of the dean of his college.

Selection of the recipients for the Faculty Aide Scholarships will be made by Ralph N. Kreckler, director of Student Aid; Elbert Osborn, vice president for Research; and John Rackley, vice president for Resident Instruction.
