

AWS to Hold Primary Today

Sixteen candidates for Association of Women Students offices face the voters today in a primary election.

Polls located in each living area will be open from 11 a.m. to 2 p.m. and 4:30 to 7 p.m. today. Commuters and town women may vote in the Hetzel Union Building from 11:30 a.m. to 4:30 p.m.

No primary is needed for president and vice president because there are only two candidates for each office. These names will appear on ballots in Thursday's final elections.

Judy Allen and Janis Somerville are running for AWS president. Barbara Feit will oppose Merle Stens for first vice president.

THE OFFICES on today's ballot are second vice president, secretary and treasurer. In the final election, the number of candidates will be limited to the two people receiving the highest number of votes in the primaries.

Running for second vice president are Barbara Brown, Judy Duquette, Lynn, McTavish and Sandra Whiteley. A fifth candidate, Barbara Bruni, has withdrawn because she may study in Europe next year.

The second vice president serves as liaison between the local AWS and the Intercollegiate Association of Women Students.

CANDIDATES FOR AWS secretary are Vicki Caplan, Shannon Klug, Marjorie Moran, Margaret Raney, Jean Ruhl and Emily Workman. This officer takes minutes of all AWS Senate and executive committee meetings, handles all Senate correspondence and maintains AWS records.

Joan Adams, Carole Kersh, Marjorie Porter, Dorothy Ryan, Carolyn Sodini and Sherry Zwayer are running for treasurer.

USG By Laws--

(Continued from page one) be closed for the question at hand by a majority vote of Congress. Such a closure motion of gallery debate shall be voted on immediately.

The Rules Committee Chairman shall be elected by a majority of the Congress. The Rules Committee members (four) shall be appointed by the committee chairman with the consent of the Congress.

These by-laws may be amended by a two third vote of Congress after having been read and discussed at the previous meeting.

Pickets Protest Non-union Contract

Pickets appeared at the Ordinance Research Laboratory yesterday morning in an apparent protest against the awarding of a contract for work on the Garfield Thomas Water Tunnel near N. Atherton St. and Pollock Rd. to a non-union contractor.

From three to six pickets walked the line during the day, some carrying signs which read "Floyd Bush Unfair to Organized Labor."

W. Floyd Bush, a Martinsburg, electrical and general contractor, is doing improvement and modernization work on the water tunnel under a Navy contract.

"I am meeting in every way the minimum standards established by the Navy for project contractors," Bush said last night.

The University is technically not involved in the dispute, Walter H. Wiegand, director of the Physical Plant, said. The pickets did not interfere with entrance to the project. The University operates the laboratory under contract with the Navy, which is responsible for all contracts for modernization and improvement, he added.

The treasurer holds responsibility for AWS funds and also submits the group's budget, subject to the approval of AWS Senate.

The AWS elections code states that write-in votes will be disregarded. Those parts of the ballot properly marked, however, will be tallied. Incomplete ballots will also be counted.

IF A BALLOT contains more than one vote for each office, that office shall be disregarded in counting but the rest of the ballot will be tallied.

Ballots will be numbered to guard against their loss or misplacement, according to the code.

Hodges Speaks to Students--

(Continued from page one) cent tax rebate to expanding corporations, is passed by Congress.

Answering a question concerning the possibility of trade with

Communist nations, Hodges said that public opinion in this country prevents any trade with the Soviet bloc.

"We won't sell an all-day sucker to Red China," he said.

FREUD WOULD HAVE LOVED IT! (otherwise known as a Freudian slip)
 We recently received a very surprising letter from a psychiatrist who had seen **"THE MARK"**. He said he loved it and felt sure the picture was either written by a psychiatrist or by a man who had a complete knowledge of the subject. We feel flattered, receiving such praise from such a critical member of the audience. There aren't many taut psychological dramas that are so real that the suspense comes out honed to razor sharpness. "Spellbound" was in this unique class, with a handful of others like "The Snake Pit." Now, another member joins the class—**"THE MARK"**. And, according to psychiatrists—and critics, too—it scores a very high mark indeed. You'll be very suspensefully surprised. No need to bring your MD license or even a couch. Everybody's welcome.
