

# Alfred Senate Acts on Bias

The Student Senate at Alfred University in Alfred, N.Y., took a monumental step recently in eliminating racial and religious discrimination on its campus.

The Student legislative body according to a report in the *Fall Lux*, the Alfred student newspaper ruled that all fraternities having discriminatory clauses will have to prove annually that they are striving to eliminate such clauses from their constitutions. Fraternities will make these yearly progress reports to the Student Senate on removing these clauses. If the student Senate does not feel that adequate progress is being made and rejects the report of a fraternity, this report will

then be submitted to the school's administration, which will be expected to respect student opinion and take appropriate action, the article said.

**REPRESENTATIVES TO** the Alfred Senate are elected from living areas.

Alfred University has six fraternities on its campus, three of which have discriminatory clauses or racial and religious membership requirements. One of the three is a local fraternity.

The recent ruling on discrimination was contained in an amendment to the constitution of the Student Senate which gave that legislative body the power to review and veto any rule, laws or provisions of any other student organization.

**A CLAUSE SIMILAR** to the one passed by the Alfred student government was originally included in the USG Constitution presented to the Senate Committee on Student Affairs this fall. It was stricken from the constitution by the interim student government, upon the recommendation of the Student Affairs Committee.

The Kenny Kuhn Quintet, local jazz group, featuring Kenny Leesight, a Pittsburgh jazz musician, also played at the workshop.

# Police Report 3 Students In Accidents

Three accidents involving students were reported by state and local police over the weekend. None of the mishaps resulted in injuries, but extensive damages were recorded.

Three cars were involved in a collision early Saturday morning at the intersection of S. Pugh St. and E. Beaver Ave. A car operated by Richard Goldstein, senior in arts and letters from Wynnwood, struck by a car driven by George S. Siekielski of Boonton, N.J.

Siekielski had tried unsuccessfully to drive his car around a third vehicle at the intersection after his car's brakes failed.

**SEIKIELSKI HIT** both the third car, driven by Charles Salter of Chambersburg and the Goldstein car. Siekielski's car came to a halt against a tree near the northwest corner of the intersection. Damages to all three cars totaled about \$1,200.

Later Saturday morning, Victor Riva, senior in physics from Monessen, and Kambiz Yadegar, junior in electrical engineering from State College, collided in the 100 block of S. Garner St. due to simultaneous skids. State College police estimated total damages at \$2,275.

Early yesterday morning, Dennis Narehood, sophomore in business administration from Milton, skidded on an icy patch on Rt. 322 about one mile east of Boalsburg and hit a tree. Damages to his car were estimated at \$400 dollars by State Police at Rockview.

## Rockwell Cancels Talk

For the second time in two weeks, George Lincoln Rockwell, head of the American Nazi party, cancelled a scheduled talk to be delivered from the post office steps in Lewisburg.

Rockwell said icy roads were the cause of this cancellation. The talk had first been postponed because the Nazi leader was suffering from the flu.

# 'Record' Delayed Until March 8

The first edition of the USG Record which was to be distributed Thursday has been delayed until March 8 due to technical changes.

Kurt Simons, editor, said the delay is due to the fact that the off-set printer required a week's notice to print the paper.

"This delay is warranted because the off-set printing method will give the paper a better appearance," he said. "We considered mimeographing the paper, but we can't use photographs if we mimeograph it."

**SIMONS SAID** he was also considering altering his proposed distribution policy. Originally he said he would give each congressman 50 copies of the paper and also place 50 at the Hetzel Union desk.

Upon reconsidering the policy, Simons said last night that he would place the copies in the dining areas and in the HUB before the evening meal on March 8.

"The distribution policy was changed with the consideration that it would be more evenly and effectively distributed," he said. "We also decided to have about 2,000 copies printed with several hundred placed at the HUB, since many town men eat their evening meal there."

**SIMONS HAD** originally planned to print about 1,500 copies.

If Congress approves the newspaper, Simons said, he plans to publish it every other week with the issues coming out on Thursdays.

## Shades of the Old West

**TAIPING, North Malaya (AP)**—Five thieves blended new and old to stage a holdup at a local tin mine. They were armed with daggers and spears and made off with \$1,000 worth of ore in a truck.

# Alpha Colony Pledges National

Alpha Colony has officially been accepted as a pledge chapter of Alpha Sigma Alpha national sorority according to a telegram received Wednesday from the national organization by Dorothy J. Lipp, dean of women.

The group itself has not yet had official notification, Jean Wright, corresponding secretary, said yesterday, so there are no definite plans for formal pledging.

The Senate Committee on Student Affairs approved the charter of the group as a colony Feb. 14 last year, and approved its petition to affiliate with Alpha Sigma Alpha earlier this term.

**THE NATIONAL** sorority was founded in 1901 at what is now Longwood College in Farmville, Va. Since that time its membership has grown to 41 active collegiate chapters.

The new pledge chapter present-

ly has 36 full members and 29 pledges.

In other sorority developments, the Senate Committee on Student Affairs revoked the University's charter of Beta Sigma Omicron and rechartered the group as Gamma Colony, Laurence H. Lattman, committee chairman, said. Lattman added that this action was not a punitive thing, but taken at the group's request.

Also, Alpha Kappa Alpha sorority is requesting full sorority privileges after more than a year's time of provisional status, Jan Wanner, Panhellenic president, announced.

**TO HAVE THIS** request granted the group's revised constitution must first go to the Senate Subcommittee on Organizational Control and then to the Senate Committee on Student Affairs. Mrs. Richard Vanderpool, Pan-

hellenic adviser, said the group was granted provisional status last year due to an unstable membership. Since then, she said, the group has increased to 31 members.

Only 16 members are required for the group to belong to the Panhellenic Council.

Tatoosh Island, one mile off Olympic Peninsula is the extreme northwest corner of the United States. The island's population of 18 is made up of the members of the Coast Guard and weather stations which broadcast storm warnings to the mainland.

## Baker Elected President of Liberal Arts Council

Morris Baker, junior in political science from Harrisburg, was elected president of the Liberal Arts Student Council last week.

Joyce Whitehead, junior in social welfare from Kennett Square, was elected vice president. Roslyn Sklar, sophomore in political science from Wallingford, was elected recording secretary.

Marilee McClintock, sophomore in arts and letters from Maplewood, N.J., and Carol Hoffman, freshman in arts and letters from Valley Stream, N.Y., were elected corresponding secretary and treasurer respectively.

Ten outstanding seniors will be awarded citations at the annual Liberal Arts Council banquet March 8. Applicants for the awards will be screened by a student-faculty committee.

The council amended its constitution to require screening of candidates for council elections in the fall. In the past the council has not screened applicants.
