

TODAY ON CAMPUS

Jazz Club

The Jazz Club booth on the ground floor of the HUB will sell tickets today through Friday for the Horace Silver concert, "Blow Your Blues Away", which will be held Saturday. Tickets are \$1.25 for members and \$1.75 for non-members.

Exhibits

Dr. Milton S. Osborne, professor and head of the Department of Architecture, will speak at 7:30 p.m. today in the Exhibition Hall of Hammond. His speech will mark the opening of an exhibit of 35 models by freshman students in architecture. The exhibit which will continue until March 9, and the lecture are open to the public.

A student-staff art exhibit will be held from 7 to 9 p.m. in Pollock 4.

PSEA Lectures

The Penn State Education Association will hold an open meeting at 7:30 p.m. in 214 Boucke. Raymond H. Amalong, head of the teacher placement service, and Norman Harris, superintendent of Bald Eagle High School, will speak on job interviews, the

purpose of the placement service and what is expected of a high school teacher.

SBX Elections

Dennis Mollura, junior in journalism from Clearfield, was elected president of Sigma Delta Chi, men's journalism society, Sunday night.

Mollura, in addition to being a full-time student, works for the Centre Daily Times, State College newspaper.

Also elected were Robert Yearick, junior in journalism from Lock Haven, vice president; David Runkel, junior in business administration from Cochranton, secretary; and William Joyce, junior in journalism from Swissvale, treasurer.

Other Meetings

Ag Student Council, 7 p.m., 213 HUB
 Arnold Air Society, 8 p.m., 217, 218 HUB
 BX, 6:30 p.m., HUB assembly
 Camera Club, 7:30 p.m., 111 Boucke
 ICCB, 7 p.m., 213 HUB
 Panhel, 6:30 p.m., 203 HUB
 Sophomore/Class Advisory Board, 7 p.m., 214, 215 HUB
 UCA, 8:45 p.m., 218 HUB

CIRA to Sponsor European Tour

Graduate or undergraduate students interested in touring Europe this summer may contact Clifford A. Nelson, director of the European seminar sponsored by the Committee on Inter-Religious Affairs.

The CIRA tour, scheduled for June 24 to July 23, is limited to 20 members. The group will sight-see in France, England, Italy, Switzerland and Holland.

The members of the tour will hear lectures by prominent European politicians, artists, churchmen and educators. They will at-

tend theaters and concerts in London and an open-air opera in Rome.

Two extension tours to Nice and Paris, France, or to Germany with visits to Heidelberg, Bonn and Frankfurt, are also offered.

Co-Edits

Newly elected officers of Delta Gamma are Lois Haegley, president; Lillian Leis, first vice president; Susie Randolph, second vice president; Peggy Krick, recording secretary.

Dutch Choir to Appear Tomorrow

The Netherlands Chamber Choir, to appear at 8:30 p.m. tomorrow in Schwab, will present a widely-varied program including Dutch, American and Flemish folk songs, classical selections and religious works.

Approximately 470 student and 125 general admission tickets are still available for the Artists' Series presentation and will be distributed starting at 9 a.m. today and tomorrow at the Hetzel Union desk.

The choir will sing "Sanctus" by Jacobus Clemens non Papa, "O bone Jesu" by Loyset Compere and "Stabat Mater" by Giovanni Palestrina, during the first half of the program along with several 16th century English compositions.

THE SECOND HALF of the program will include Strategier's "Cantica pro tempore natali," Megelberg's "Antiphona de Morte" and Poulenc's "Soir de Neige" in addition to four folk songs.

The group of 18 men and women sing mostly without accompaniment, in the tradition of

Dutch cathedral choirs of the 15th and 16th centuries. During this period, Dutch choral masters were famed throughout Europe and many singers from the Netherlands served in the Papal Choir in Rome.

Several leading composers including Frank Martin, Alexandre Tansman and Francis Poulenc, have dedicated works to the Chamber Choir.

In addition to a cappella selections, the choir's repertoire includes music with orchestra, organ or piano, with composers ranging from Palestrina to Stra-

insky. ALL 18 CHOIR members are individually noted throughout Europe for their appearances in recitals, oratorios, operas and broadcast concerts.

The choir, now on its second United States tour, has made several recordings on the Epic and Angel labels. One is a collection of Dutch folk songs arranged by the conductor Felix de Nobel. "High Fidelity" Magazine commended one recording, a collection of Palestrina's works, for its "flexibility, fine tone and accurate intonation."

\$20 Million Causes Squeeze

(Continued from page one) developed by the Department of Public Instruction.

A community college program will be essential in the future, Walker said.

"I THINK WE'VE got to have them," he said. "The kind of educational programs they would provide and the type of students they would enroll cannot be adequately handled by the present educational system."

At a Feb. 8 press conference, Charles Boehm, Superintendent of Public Instruction, said that Penn State is not a state university because "state government representation on its board of

trustees is less than 20 per cent of the board."

Walker considered Boehm's statement invalid for two reasons:

HE MAINTAINED that government representation on the Board exceeds 20 per cent. Walker held that the state government has 10 representatives on the 32-member board. He included four ex-officio members sitting by position in the state government and six members appointed by the Governor.

Walker said he sees no basis for defining the University's status according to the per cent of government representation on its board of trustees.

Our future is in the hands of men not yet hired

At Western Electric we play a vital role in helping meet the complex needs of America's vast communications networks. And a career at Western Electric, the manufacturing arm of the nation-wide Bell Telephone System, offers young men the exciting opportunity to help us meet these important needs.

Today, Western Electric equipment reduces thousands of miles to fractions of seconds. Even so, we know that our present communications systems will be inadequate tomorrow; and we are seeking ways to keep up with—and anticipate—the future. For instance, right now Western Electric engineers are working on various phases of solar cell manufacture, miniaturization, data transmission, futuristic telephones, electronic central offices, and computer-controlled production lines—to name just a few.

To perfect the work now in progress and launch many new communications products, projects, procedures, and processes not yet in the mind of man—we need quality-minded

engineers. If you feel that you can meet our standards, consider the opportunities offered by working with our company. In a few short years, you will be Western Electric.

Challenging opportunities exist now at Western Electric for electrical, mechanical, industrial, and chemical engineers, as well as physical science, liberal arts, and business majors. All qualified applicants will receive careful consideration for employment without regard to race, creed, color or national origin. For more information about Western Electric, write College Relations, Western Electric Company, Room 6206, 222 Broadway, New York 38, New York. And be sure to arrange for a Western Electric interview when our college representatives visit your campus.

Principal manufacturing locations at Chicago, Ill.; Kearny, N. J.; Baltimore, Md.; Indianapolis, Ind.; Allentown and Lewisdale, Pa.; Winston-Salem, N. C.; Buffalo, N. Y.; North Andover, Mass.; Omaha, Neb.; Kansas City, Mo.; Columbus, Ohio; Oklahoma City, Okla.; Engineering Research Center, Princeton, N. J. Teletype Corporation, Shabaz, Ill., and Little Rock, Ark. Also Western Electric distribution centers in 33 cities and installation headquarters in 18 cities. General headquarters: 195 Broadway, New York 7, N. Y.
