THE HANDS OF AN ASTRONAUT

are symbols of America's multi-billion dollar exploration of space—a vital part of our defense. • Your tax dollars help pay for such projects. And it is easier for the government to budget money for such essentials when it cuts out needless spending in other places. • For example, there is no need to spend any taxes for more government electric power plants and power lines, as some people are now proposing. The investor-owned electric light and power companies—your electric company is one of them—can supply all the additional electric power America will need. • And your hard-earned tax money can be spent to keep our country's defense strong.

WEST PENN POWER
 Investor-owned, tax-paying—serving WESTERN Pennsylvania
