SCUBA DIVERS: Louise Lutkefедder is being helped with her SCUBA equipment by Eugene McLaughlin, vice president of the Penn State Skin-diving Club. The club is currently holding classes at Glennland Pool to teach beginners both skin and SCUBA diving.

### 2 Divers Offer SCUBA Lessons

Swimmers at Glennland Pool may find themselves competing with novice skin and SCUBA divers for pool space during the next few months.

Diving lessons are the latest project of the Skin Diving Club. Fifty members of the club are being instructed in SCUBA (Self-Contained Underwater Breathing Apparatus) techniques by John Quinan, past president and founder of the club, and Eugene McLaughlin, vice president, both certified instructors.

EIGHT MEMBERS of the club who have passed diving examinations are currently assisting police and civil defense emergency crews in rescue operations.

The 250-member organization is

sponsored by Robert F. Schmalz, associate professor of geology, who is interested in scientific fields involving skin diving, such as oceanography and marine biology. The club plans to exchange oceanographical information and to aid in research projects under the direction of professors at various universities, Quinan said.

"Under this program, he explained, members of the club would gather information about rock and coral formations, underwater geography or marine life for researchers and send them specimens and information."

QUINAN HAS proposed an intercollegiate diving association

## Senators to Debate Saturday

A debate between Sen. Hubert H. Humphrey, D., Minn., and Sen. Karl E. Mundt, R., S.D., will be held at 8:30 p.m. Saturday in Schwab sponsored by the University Artists' Series.

Tickets for the debate titled "Is the New Frontier Moving in the Right Direction?" will be available for students at 1:30 p.m. tomorrow at the Hetzel Union desk. Non-student tickets will go on sale Thursday. If more students want to hear the debate than can be seated in Schwab, it will be televised by closed circuit. Nina Brown, director of the Artists' Series said.

Dr. Robert G. Bernreuter, special assistant to the president for student affairs, will moderate the debate.

HUMPHREY WAS elected to the Senate in 1948 and again in 1954. While serving in the Senate, he has been a strong supporter of the United Nations and of international programs for the exchange of students.

He is a member of the Democratic steering committee in the Senate.

Humphrey has served on the Senate Post Office and Civil Service Committee and the Labor and Public Welfare Committee. At present he is on the Select Committee on Small Business, the For-

ign Relations Committee and the Foreign Operations Committee. Humphrey and Mundt both serve on the Senate Committee on Agriculture and Forestry.

Humphrey received his bachelor of arts degree from the University of Minnesota in 1939, magna cum laude. A year later, he received a master's degree in political science from Louisiana State University.

MUNDT, WHO ACTED as chairman of the widely televised Army-McCarthy hearings several years ago, served 10 years in the House of Representatives before being elected to the Senate in 1948.

While a representative, he was

acting chairman of the House Committee to Investigate Un-American Activities during the espionage hearings which resulted in the discovery of the "Pumpkin Papers" which led to the disclosure and conviction of Alger Hiss.

MUNDT IS ALSO a member of the Senate appropriations committee, the Senate investigating committee, the Select Committee on Improper Activities in the Labor or Management Field and the Special Committee on Space and Astronautics.

He graduated from Carleton College in 1923 and received his master's degree from Columbia University in 1927.

## Survey to Study Student Attitudes On 4-Term Plan, Faculty, Courses

A survey of student attitudes on such subjects as courses, faculty members and the four-term system will be conducted by the Office of Student Affairs Research between April 16 and 19, Mrs. Gloria Bernhein, graduate research assistant in charge of the survey, said yesterday.

Approximately 1,500 randomly chosen undergraduate students will be contacted this week through a letter explaining the survey and asking them to report to complete the written questionnaire, Mrs. Bernhein said.

THE WRITTEN questionnaire will take approximately 30 minutes to complete and will be given at 7 p.m. in 119 Osmond on the above dates, she said.

"The main purpose of the survey is to gain a reliable picture of how the students feel about the University and the reasons behind their feelings," Mrs. Bernhein said.

According to the letter: "The President's Office as well as other administrative offices... have felt that there has been a lack of communication between the student body and the administration."

"We have developed the student attitude survey which we

hope will give the administration a much more accurate picture of just how the students feel about Penn State."

A PILOT study was given to about 100 students last month, Mrs. Bernhein said. It indicated new items which the researchers felt should be included on the survey, she said.

Themes on "Why I Chose to Come to Penn State" and other surveys over the past two or three years were all used as a basis for some of the questions, Mrs. Bernhein said.

### Final Exams--

(Continued from page one) were 86 direct conflicts, or 14.6 per cent, and 83 conflicts, or 14.1 per cent, because of three tests on the same day. This is a total of 169 conflicts, or 28.7 per cent. Miller explained that under the semester system, with an eight-day final examination period, the number of conflicts was about the same. The reduction in the number of courses each student schedules and the reduction in the exam period are the reasons for the similarity, he added.

A two-hour examination, Miller said, would require a minimum of five days to schedule.

### Sunny Skies Due Today; Rain Likely Tomorrow

Cold air invaded Pennsylvania yesterday causing temperatures to fall steadily during the afternoon and last night.

Readings early today were forecast to be near the freezing mark in this area and frost was expected throughout the state.

Today should be partly cloudy and cool with abundant afternoon sunshine. A high of 54 degrees is expected.

Clear to partly cloudy skies and chilly weather are seen for tonight, and a low of 35 degrees is likely.

Tomorrow should be mostly cloudy and cool with rain beginning during the day. The high temperature will be near 55 degrees.

THE MENNINGER APPROACH TO MENTAL ILLNESS: NO PATIENT IS

# HOPELESS

A patient at the Menninger Hospital had been hate-ridden for years. So the doctors let her work off her anger by hitting golf balls. And it worked! In this week's Post, you'll learn why the Menningers feel no patient is hopeless. And you'll read case histories from their files.
