

Research Review

Prof to Direct Mexican Village Study

By CLAUDIA LEVY

Village planning among pre-historic peoples of the Teotihuacan Valley, Mexico, will be examined this summer as part of an archaeological dig directed by William T. Sanders, associate professor of anthropology.

Teotihuacan Valley is part of the Valley of Mexico, one of the key regions of ancient Mesoamerican civilization and among the richest areas in the world in number of archaeological sites, Sanders said.

Supported by grants from the University and the National Science Foundation, the five-year research project is also attempting to gather more information on house types found in this area.

"WE ARE INTERESTED in the community as a social organization, in the history of local communities and in agricultural technology of this region," Sanders said. "We are concerned with social-political organization, from the earliest hunters who came into the area in 10,000 B.C. to the period of the Spanish conquest. We are trying to get a picture of the various ways people of each period have adjusted to the land and ways environment affected the general occupations of man. "The Valley of Mexico is one of

the major regions of Mesoamerica, and a full understanding of its prehistory is crucial to an understanding of the processes of the development of Mesoamerican civilization as a whole," he said.

TWENTY UNDERGRADUATE students from the University are going along on the dig to participate in a field school in archaeology. In addition to lectures and trips to a number of sites of known significance in the cultural history of Mesoamerica, the students will map floor plans for the planned digs at three village sites. They will also make surveys and assist in the more detailed processes of excavation.

This is the third summer Sanders has made surveys and excavations in the Teotihuacan Valley, located 30 miles northeast of Mexico City. The valley is in the area of the evolution of Middle-American civilization from the camp sites of early hunters to the rise of the largest Aztec city in the valley with a population of 50,000.

THE PROJECT this summer will continue excavation at Maquixco, a village of the classic period dating from 100 to 700 A.D. Last summer a house in this village was excavated and an extended family pattern postulated on the basis of number of rooms,

particularly kitchens, and the pattern of inter-communication of rooms in the house, Sanders said.

A survey revealed that such houses occur in clusters of two to four around little plazas. This summer Sanders plans to excavate completely one such large cluster of houses and to define its social and religious functions and structure.

Artifacts such as kitchen pottery, shell and bone ornaments, stone tools and figurines have been uncovered by the excavation teams. Signs of religious worship such as temples have also been discovered.

IN ADDITION to excavations in two other villages, diggings in the abandoned terrace systems, canals and irrigation dams are planned to determine their age. Three graduate students will continue a "Turbulent Flow" at 4 p.m. in 232 general survey of the valley Hammond.

Maurice A. Mook, professor of anthropology, and four graduate students from the University will assist Sanders in the project.

TODAY ON CAMPUS

Center Stage

The Penn State Players will present Shaw's "Man of Destiny" and Samuel Beckett's "Krapp's Last Tape" at 8 p.m. at Center Stage.

French Institute

Dr. R. Wallace Brewster, professor of political science, will speak on "Problem of Organizing Political Authority in France" at the NDEA French Institute Lecture at 7:30 p.m. in the Home Economics Living Center.

Seminar

Dr. Joseph Sternberg, chief of Exterior Ballistics Laboratory of the Aberdeen Proving Ground, Aberdeen, Maryland, will speak at the Fluid Mechanics Seminar on "The Laminar Sublayer of a Turbulent Flow" at 4 p.m. in 232.

M I Colloquium

"Some Aspects of Crystal Physics" will be the subject of a talk

by Dr. S. Bhagavantam, director of the Indian Institute of Science, at the Mineral Industries Colloquium at 3:45 p.m. in the Mineral Industries auditorium.

Meetings

The Interlandia Folk Dancers will hold a folk dance from 7:30 to 11 p.m. in '01 Engineering Dances of countries throughout the world will be taught.

The Inter-Varsity Christian Fellowship will meet at 7:30 p.m. in 111 Boucke.

Ogontz Center Timetable

Philadelphia area students interested in taking courses at the University's Ogontz campus for the summer term will find a complete timetable of courses to be offered listed in the University Park timetable for summer 1962. Instructions and materials for any student planning to attend summer term at Ogontz may be obtained from Samuel W. Haggerty, assistant registrar, in 4 Willard.

Chapel to Hold Services Today In Observance of Good Friday

Good Friday services, with prayers and meditations on each of the seven last words of Jesus on the cross, will be held from noon to 3 p.m. today in the Helen Eakin Eisenhower Chapel.

William Watson, assistant director of the Wesley Foundation, will speak on "Father, forgive them" starting at noon. "This day shall Thou be with Me in paradise" will be discussed by the Rev. Arthur Seyda, Lutheran student pastor, at 12:30 p.m.

Starting at 12:55 p.m., the Rev. Melvin Whitmire, minister of the Evangelical-United Brethren Church, will speak on "Woman, behold thy son." Bruce Kuhre,

seminary intern at the Lutheran Student Center, will speak on "My God, why hast Thou forsaken Me?" at 1:20 p.m.

"I thirst" will be discussed by the Rev. P. Barrett Rudd, assistant director of the University Christian Association, at 1:45 p.m. Donald McIlvride, director of the Westminster Foundation, will speak on "It is finished" starting at 2:10 p.m. The Rev. Robert Boyer, Baptist student pastor, will end the service by speaking on "Into Thy hands I commend My spirit" starting at 2:35 p.m. and ending at 3 p.m.

The public may arrive or leave at the times stated above.

CAMERA OWNERS NEEDED

Male and Female Students Who Own a Camera To Participate in Experiments

Meetings to be held on Campus as follows:

- 1:45 P.M. Tuesday April 24
- 3:45 P.M. Tuesday April 24
- 6:00 P.M. Tuesday April 24
- 3:45 P.M. Friday April 27
- 6:45 P.M. Friday April 27

- Meetings to last a maximum of 1 hour
- Flat rate of \$2.50
- This rate to hold for all subjects signed to date
- Must know make and model number of camera
- Sign up at the Office of Student Aid, 218 Willard
