

TODAY ON CAMPUS

5 O'Clock Theater

"And Sometime We Get to Eat Supper," a play by Marilyn Tischer, senior in arts and letters from Cleveland Heights, Ohio, will be presented at 5:15 in the basement of Old Main.

Sponsored by The Five O'Clock Theater, the play will be directed by David Downing, graduate student in public administration from Alexandria, Va.

Lecture

Robert Napier, instructor in architecture, will speak to the Student Society of Landscape Architecture at 7:30 p.m. in 108 Tyson Building.

Colloquiums

Dr. Ronald Breslow of Columbia University will speak to the Chemistry Colloquium at 12:40 p.m. in 302 Whitmore Laboratory.

Dr. Peter Shaw of Carnegie Institute of Technology will hold two physics colloquiums. At 1:30 p.m. in 216 Osmond Lab he will discuss "Inelastic Effects in the Resonance Region of Pi-N Scattering." At 4:15 in 117 Osmond Lab he will speak on "Polarization Effects in High-Energy Pi-N Scattering."

Math Competition

The Fifth Annual Pi Mu Epsilon-HRB Mathematics Competition will be held at 7 p.m. in 203 and 217 Willard. The elementary division of the contest is open to all freshmen and sophomores. Juniors and seniors in advanced division may enter the exam, which will last approximately two hours, tests powers of mathematical reasoning.

Other Meetings

Ar Hill Party, 8:30 p.m., 213 HUB
Gamma Sigma Sigma, executive committee, 8:30 p.m., 215 HUB; pledges, 9 p.m., 214 HUB
Engineering-Architecture Student Council, 7 p.m., 216 Hammond
International film, "Citizen Kane," 8, 7, and 9 p.m., HUB assembly room
Office of Student Aid, 11 a.m. to 5 p.m., 217 HUB
Penn State Flying Club, 7 p.m., 212 HUB
Rush models, 6:30 p.m., Delta Delta Delta sorority suite
Schubplatters, 8 p.m., 215 Wagner

Alum Fund Reaches \$161,379

Alumni Fund contributions received during the current drive will supervise solicitations among the nearly 8,000 persons who have reached \$161,379, J. E. Holtzinger, national fund chairman, said recently. The drive ends June 15.

This figure, Holtzinger said represents gifts from 7,432 alumni.

Holtzinger will present a check to the University for the final total as a part of annual class reunion program June 16.

Holtzinger has also appointed Dr. John L. McClucas, president of HRB-Singer, Inc., to the position of chairman of the graduate school alumni drive. McClucas

will supervise solicitations among the nearly 8,000 persons who have received advanced degrees from the University. Alumni Fund contributions reached \$208,488 last year, when donations were received from 11,610 alumni.

Coming To Europe This Summer?

If you are planning to buy or rent a car in Europe, we suggest that you find out our low rates before finalizing. We offer the lowest prices in Europe on many models. We are owned and operated by former students, Texas A&M '56, and U. of Md. Phi Delta Theta '61, so we know your special problems. Some of our prices, including American specifications, registration & touring documents, delivery costs, map and a pat on the back:

Morris 850 Mini-Minor	\$1050
VW deluxe sedan	\$1298
MG Midget	\$1298
Sunbeam Alpine	\$1995
daily charge renting VW	\$2.95

Contact us before doing anything rash! even if you can't make Europe this summer ask about our import yourself plan.

Eurauto N.V. Dept. A, Postbus 333, Rotterdam, Holland

CRAM COURSE NO. 4: BATHYMETRY

Continuing our series of pre-final exam cram courses, today we take up bathymetry—the study of ocean depths.

Admittedly, this is not a terribly popular course on most campuses. And small wonder. In the whole world there is only one bathyscape, and only two people can get into it.

Nevertheless, the study of ocean depths is of great importance. Why, do you realize that the ocean is by far the world's largest biological environment? The ocean has more than three hundred times as much living room as all the continents and islands combined! Unfortunately, only fishes live in it.

And small wonder. Who'd want to live some place where he couldn't smoke? Surely not I! I wouldn't give up my good Marlboro Cigarettes for the Atlantic and the Pacific put together. Nothing could induce me to forego Marlboro's fine mellow flavor, Marlboro's clean white filter, Marlboro's flip-top box that really fits, Marlboro's soft pack that's really soft. Let others repair to the spacious deeps. Me, I will stick with my Marlboros and the tiny garret I share with a tympantist.

But I digress. Back to the oceans. The largest, as we know, is the Pacific, which was discovered by Balboa, a Spaniard of great vision. To give you an idea of Balboa's vision, he first saw the Pacific while standing on a peak in Darien, which is in Connecticut.

Even more astounding, when Balboa reached San Francisco, he clearly saw the Hawaiian Islands! Being, as we know, a friendly cuss, Balboa waved merrily to the Hawaiians and shouted, "Great little ocean you got here, kids!" The Hawaiians, also, as we know, friendly cusses, waved back, declared a half holiday, organized a luau, built a cheery fire over which they prepared several gallons of poi, a suckling pig, and Captain Cook. This, of course, was the origin of Cooking.

Who'd want to live there?

But I digress. The Pacific, I say, is the largest ocean and also the deepest. The Mindanao Trench, off the Philippines, measures more than 5,000 fathoms in depth. (It should be pointed out here that ocean depths are measured in fathoms—lengths of six feet—after Sir Walter Fathom, a noted British sea measurer of the seventeenth century who, upon his twenty-first birthday, was given a string six feet long with which he used to go scampering all over England measuring sea water until he was arrested for loitering. A passion for measuring seems to have run in the family; Fathom's cousin, Sir Sol Furlong, spent all his waking hours measuring race tracks until Charles II had him beheaded in honor of the opening of the London School of Economics.)

But I digress. Let us, as the poet Massfield said, go down to the seas again. (The seas, incidentally, have ever been a favorite subject for poets and composers.) Who does not remember Tennyson's "Break, break, break"? Or Byron's "Roll on, thou dark and deep blue ocean, roll"? Or the many hearty sea chantees that have enriched our folk music—songs like "Sailing Through Kansas" and "I'll Swab Your Deck If You'll Swab Mine" and "The Artificial Respiration Polka." My own favorite sea chanty goes like this:

*A girl loved a sailor and he did jill her,
And she did weep and roar-hal
Until she found a perfect filter,
And a perfect smoke—Marlboro!
Sing hey, sing ho, sing ring-a-ding-ding,
Sing tars and spars and patches,
Sing pack and box and lots to like,
And don't forget the matches!*
