

Panhel Supports Float Parade At Homecoming

By PEGGY RUSH

The Panhellenic Council voted 18 to 4 last night to support holding a float parade on Homecoming Weekend.

The council also passed an amendment to the motion stating that Panhel ask the Interfraternity Council to call a special meeting and invite sororities to discuss a Homecoming float parade.

At its final meeting of the term Monday night, IFC unanimously voted not to have a float parade as part of the Homecoming activities.

IFC voted 39 to 8 to hold a float parade on Friday night of Spring Week and the IFC-Panhel Music Festival on the following Saturday night.

ROBERT POLISHOOK, Homecoming Weekend and float parade chairman, speaking later in the Panhel meeting, said that he had intended to appear at the IFC meeting and speak in favor of a Homecoming float parade but was told by a member of the IFC executive committee that the meeting was for fraternity representatives only.

Emil Sos, IFC president, said last night that he told Polishook that there was a possibility that the meeting would be closed. He said that Polishook said he did not plan to attend anyway.

Polishook said that he would appear at the Undergraduate Student Government meeting tomorrow night and give a report on the possibilities of having a Homecoming float parade. He said that he would try to have all the facts and plans listed in the Collegian as soon as possible if USG were to recommend a float parade.

In other business, the Council passed a motion recommending that next year's Greek Week be scheduled for February 22 to 29. Greek Week has tentatively been planned for Oct. 21 to 27, but the Council representatives expressed opinions that there would not be enough time to prepare for the sing if the Homecoming float parade were held the previous weekend.

IFC, HOWEVER supports holding Greek Week in October and neither the IFC nor the Panhel Greek Week chairmen have the power to compromise without the vote of their groups. Both groups have held their final meeting of the term.

Jean Kennedy, Panhel second

vice-president and Greek Week chairman, said that if a joint Panhel-IFC meeting were to be called, Greek Week would be the main topic of discussion.

Also in other business, the Council accepted a code for the formal 1962-63 sorority rush. Under the code, sorority open houses will begin Sunday, Nov. 11. A period of limited contact will then be in effect until formal rush registration Jan. 3. Ribboning is scheduled for 7 p.m. Jan. 14.

Open houses are scheduled for Nov. 11, 17 and 18. The first round of chatter dates will take place Jan. 5 and 6 and second round on Jan. 8 and 9. Bermuda junctions will be held Jan. 11 and coffee hours and the signing of preferences will take place Jan. 13.

Warmer, More Humid Weather Due to Return to Area Today

Rising temperatures and increasing humidities are expected to bring a return of uncomfortable weather to this area today. The mercury is forecast to reach 88 degrees under sunny skies this afternoon.

The mass of relatively cool, dry air that broke a record-setting seven day heat wave when it overspread the state Monday continued to provide pleasant weather yesterday.

The abnormally hot and humid tropical air, which was displaced southward by the invasion of the cool air, should begin returning to Pennsylvania today. However, no new heat wave is expected.

An eastward-moving cold front is expected to spread showers and

Fiery Crash Ends Secret Navy Flight

EBERSBURG, Germany (AP)—A four-engine U.S. Navy plane broke apart in flight yesterday and crashed in flames near this south Bavarian town, killing all 26 aboard.

Officials said at first the WV2 Lockheed Constellation — which apparently exploded in the cloudless sky — was on a secret mission.

A spokesman for U.S. Atlantic Fleet Air Force headquarters at Norfolk, Va., later said the classified mission report had resulted from what he called a misunderstanding.

OFFICIALS said that the Navy Department in Washington confirmed 26 persons had been on the plane although the flight manifesto indicated 27 had been aboard.

The plane carried 22 Navy officers and men and four Army personnel. All bodies were recovered.

The plane crashed in a grass field 10 miles east of Munich Airport. The tail and other parts were strewn along a path several miles long leading to the crash site.

A fish hatchery worker said the plane had plummeted toward earth with a shrill and frighten-

ing howl, and then, "There was a terrible explosion and flames shot up."

"IT ROLLED over several times in the air and then fell several hundred yards from our village," said Mathias Wolf, a Community Hall worker at the hamlet of Markt Schwaben.

"There was an explosion as if an atomic bomb had been dropped," Wolf said. He estimated the plane had come down from 9,000 feet.

Heat from the flames — which could be seen for miles around the Bavarian countryside — drove back farmers who ran to help any who might have survived.

Fourteen fire engines from

Munich quickly brought the blaze under control.

The Constellation — flying out of Frankfurt but regularly based at Rota, Spain — had radioed an emergency signal and apparently was trying for a landing at Munich.

U.S. Navy, Army and Air Force spokesmen in Europe called the flight a routine navigational training mission.

U.S. ARMY officers took over the investigation until Navy experts could fly in from Spain and Italy, and 185 American soldiers were assigned to patrol the area.

Names were withheld, pending notification of their next of kin.

USG to Continue Work Of Town Housing Lists

The town housing list, now maintained by the Undergraduate Student Government, will not be turned back to the dean of men's office "unless every possible effort by us is exhausted," Dean Wharton, USG president, said last night.

Until last year the dean of men's office had taken care of the list. **WHARTON SAID** if no one else is found to handle the job during the summer months, the USG secretary will do it.

"A lot of trouble arises because many of those who list their available rooms fail to notify the housing committee after the room is rented," Wharton said.

As a result of this, students inquire about rooms advertised on the list, find them already rented, and think the list is not up to date, he said.

An enlargement of the housing committee's operations is necessary to fully justify USG's responsibility in this area, he said. By this Wharton said he meant such new innovations as weekly mimeographed copies of the housing list which would be made available at the Hetzel Union desk and to incoming students upon request.

Wharton said he has already made this suggestion to Suzanne

Flinchbaugh, chairman of the housing committee.

Another consideration, he said, is to conduct periodic spot checks of rooms appearing on the housing list to make sure they are still for rent.

In other USG affairs, Patricia Fineran, freshman in liberal arts from Bryn Mawr, was appointed editor of the USG Record. Her appointment was announced by Harry Grace, chairman of the USG Public Relations Committee.

GRACE ALSO announced that application blanks for the Public Relations Committee are available at the Hetzel Union desk. He said there will be no deadline for the applications and that he will contact interested persons as soon as he receives their applications.

IFC Fines Fraternity

Alpha Phi Alpha fraternity was fined \$25 for improper door duty by the Interfraternity Council Board of Control Thursday night, Thomas DeRocco, board chairman, said.

The fraternity had failed to put a sign on the front door saying that the party was closed, DeRocco said.

The money will now go into the IFC treasury, he added.

Coed's Car Veers Into Parked Autos

An automobile operated by a driving toward College Avenue coed went out of control and hit on South Atherton Street slammed two parked cars at 4:15 p.m. yesterday. The coed was making a right turn into parking area 70, yesterday.

behind home plate on the baseball field, the Campus Patrol said last night.

Jeanne Bathurst, junior in physical education from State College, which was operated by George had just completed the turn into the parking area from Park Ave. when her car veered toward the left and hit the first of the two cars, patrolmen said. This car then banged into the second vehicle.

The car driven by Miss Bathurst also ran over two wooden driveway posts.

THE FIRST vehicle was owned by Edwin R. Sebastianelli of Montrose and the second by James J. Tarman, director of sports information for the Department of Public Information. The patrol said that there was damage to all of the cars, but the most extensive damage was done to the Bathurst car. No injuries resulted from the incident.

In another accident at 4:50 p.m. on Monday afternoon a student
