

THE ANNUAL BUSINESS boom at the University Creamery Salesroom is here again! Dana Rivers, a teacher at the State College Junior High School, finds refreshing relief from the warm, spring days with a Creamery cone.

13 Disciplined By Subcommittee

Thirteen students received disciplinary penalties from the Senate Subcommittee on Discipline Thursday.

Four freshmen and a sophomore were involved in an incident at a drive-in theatre lot in which one student of the group jumped on a parked automobile.

IN THE PROCESS, the radio antenna of the automobile was broken. At this point, the occupant of the car and another person nearby began arguing with the student. The other four students became involved in the argument.

They reported to the committee that the two people drove their cars around in an attempt to strike them. The students retaliated by throwing gravel at the cars.

The subcommittee ordered the following actions to be taken according to the degree of culpability in the incident and past records of the students involved.

Two freshmen were placed on deferred suspension until the end of the spring term and suspended until the end of the fall term 1962. Another freshman was placed on suspended suspension until the end of fall term 1962. Another

freshman was placed on disciplinary probation until the end of the fall term, 1962. The sophomore was placed on disciplinary probation until the end of the winter term 1963.

A senior was placed on suspended suspension until the end of the spring term 1962 for looking in the window of a woman's room in a residence hall. The Campus Patrol reported that the student was uncooperative when apprehended.

TWO SOPHOMORES and a junior were apprehended while trying to smuggle beer into the residence halls in a brief case. One sophomore was placed on disciplinary probation until the end of the winter term 1963. The other two students were placed on disciplinary probation until the end of the fall term 1962.

Two sophomores were placed on suspended suspension for attempting to steal food from a vending truck.

A sophomore and a junior were involved in an incident of selling food in the residence halls for a friend downtown and refusing to return the money or food. The sophomore, who told the friend that the community coordinator had confiscated the money, was placed on suspended suspension until the end of the winter term 1963. The junior was placed on disciplinary probation until the end of the fall term 1962.

Board Approves Preliminary Plans For Science, Conference Buildings

By STEVE CIMBALA

The University Board of Trustees has approved preliminary plans for the construction of a life sciences building and a conference center for continuing education services. Walter H. Wiegand, director of physical plant, said yesterday.

The life science building, to be located west of Frear Laboratory, will have seven floors and a floor area of 66,000 square feet, Wiegand said. He added that the structure will be joined to Frear by an underground passageway.

CONSTRUCTION OF the building will be financed by a \$831,000 grant from the National Institutes of Health and a \$1,700,000 General State Authority allocation, Wiegand said.

The building will be occupied by the Department of Zoology of the College of Agriculture and the biophysics department of the College of Chemistry and Physics, Wiegand said.

The building's facilities will be used primarily for undergraduate instruction in zoology and graduate instruction and research in zoology, physiology and biophysics.

It is expected that final plans for the structure will be completed by September of this year, Wiegand said.

The proposed conference center for continuing education services, for which the GSA has allocated \$1,825,000, will be located

on the northwest corner of the former Beaver Field, Wiegand said.

He added that present plans call for the center to have six floors and a total floor area of nearly 70,000 square feet.

The center will include an assembly room seating 400, 22 meeting rooms, some lounges, an exhibit area and various offices, Wiegand said.

Final plans for the project should be completed by October, he added.

Eng Open House

The College of Engineering will hold an open house from 1 to 5 p.m. today for students, faculty, visiting high school groups and any other interested persons to demonstrate various engineering curricula. Students demonstrations on laboratory equipment and teaching and training devices will be featured.

Included in the demonstrations are subsonic and supersonic wind tunnels, a water table, various aircraft engines and structures, a complete redevelopment study for the city of Lancaster, fatigue analysis of structural steel members and connections, electrical and engineering mechanics experiments.

Members of the Engineering-Architecture Students Council will conduct the tours.

Council Roundup

The Pollock Men's Residence Council will present awards to the outstanding living unit in the Pollock area at a banquet at 6 p.m. tomorrow in the Hetzel Union dining room A.

The 70 winners of the council's field day held recently will also be announced at the banquet.

ALSO SCHEDULED for tomorrow is the Freshman Class Advisory Board freshman-faculty tea from 2-5 p.m. in the main lounge of the HUB.

Members of the board will be present and any interested freshmen are invited to attend, Thomas Miller, freshman class president, said. About 30 professors and administrators are also invited and will speak informally with the students, he said.

The College of Engineering and Architecture will hold its annual Honors Day program fifth period Tuesday in Schwab.

A \$200 award will be presented

to the faculty adviser who has contributed the most outstanding service to undergraduates in the college. Awards and recognition will also be given to students who have received honors during the year.

This is the first year the \$200 award will be given, Benjamin W. Niebel, head of the industrial engineering department, said. It is supported by a contribution from the Penn State Engineering Association, a division of the Alumni Association, he explained.

CANDIDATES for the award were nominated by the assistant deans and department heads in the college, and each senior was asked to vote for one faculty member. The final selection was made by a committee of judges appointed by Dean Merritt A. Williamson.

The Liberal Arts Student Council newsletter, the Laviathan will be available today in the dining hall areas and at the HUB desk.

Almost Summer Now...

Whipples, bluebooks, picnics and plans for the summer — These are the many thoughts running through our minds now. Well, only two more weeks and it'll be all over!

Thought About Dad Yet?

Father's Day is right around the corner and Ethel's ready for it with cards and numerous manish-type gifts. For a really different idea, Ethel has hand carved chess sets from Italy. These figurines are about three inches tall and are dyed in rustic earthen and blue shades. This gift is especially good for that "man who has everything."

June Weddings and Showers Coming

Ethel has many "just a little bit different" items for both the practical and discriminating tastes. Table mats are available in colors and shapes to suite every personality and table setting. Trays, ashtrays, and glassware can be found in all styles from Early American to Modern. Ethel also is equipped with cards for these occasions as well as for the approaching graduates.

Gotta run!
