

Campus Patrol to Inspect Student Bicycles Oct. 6

A general inspection and registration of student bicycles will be conducted by the campus patrol from 10 a.m. to 3 p.m. Oct. 6 in campus parking area 46, Capt. John Galaida, patrol chief, said yesterday.

Students may not ride bicycles on campus or in the State College borough unless their vehicles have been inspected and registered by the patrol, he added.

GALAIDA SAID students who cannot be present Oct. 6 may bring their bicycles to the patrol office at Spruce Cottage from 9 to 11 a.m. and 1:30 to 3:30 p.m. any Wednesday, Thursday or Friday before the end of the term for registration.

Students will receive a license plate and tag for their bicycles at the inspection. The plate and tag will facilitate identification of the

vehicle in case of theft, Galaida said.

He said students who expect the campus patrol to retrieve their stolen bicycles must register their vehicles since it is almost impossible for the patrol to locate and identify an unregistered bike.

THE INSPECTION and registration are valid in State College borough as well as on campus, Galaida said. The registration expires after the 1963 summer term.

Lost Items at Willard

Articles such as tuition receipts, student identification cards or meal tickets lost during registration may be claimed from 8 a.m. to noon and from 1 to 5 p.m. Monday through Friday or from 8 a.m. to noon Saturday in 4 Willard.

DuBois Fund Nears Top

The DuBois Educational Foundation has now raised approximately \$535,000 in its campaign to secure \$600,000 for the construction of two buildings on the University's DuBois campus.

Kenneth L. Holderman, coordinator of the Commonwealth campuses, said yesterday that plans are being made to begin construction of the first building, a classroom-laboratory and faculty office combination, in the late spring or early summer of next year.

THE FUND-RAISING drive began May 16 with a kick-off dinner, Holderman said, and intensive efforts in the next six weeks produced the bulk of contributions and pledges represented in the \$535,000 figure.

The drive, he added, is now in its final stages. Additional contributions are expected after con-

struction of the first unit is begun, Holderman continued.

Preliminary plans for the building have already been drawn by the architectural firm of Hunter, Campbell & Rea of Altoona. These preliminary plans are now being inspected and some modifications may be made before the final plans and working drawings are made, he said.

AS PLANNED NOW, Holderman said, there will be four laboratories — biological sciences, chemistry, electrical engineering and physics — six classrooms, two large lecture halls, faculty and administrative offices in the building. The building will get its first use with the start of classes for the fall term 1964, he said.

The architects, Holderman said, have estimated the building will cost about \$481,000. A physical

education building, roughly estimated to cost \$150,000, will be the second part of the building campaign on the DuBois campus.

"MOST OF THE substantial support for the campaign," Holderman said, "has come from business and industry."

The success of the drive at DuBois, he also said, has stimulated several other of the Commonwealth campus advisory groups to think about similar projects. The advisory group at the New Kensington campus, for example, is also contemplating a fund drive, he added.

WDFM Workshop

The student-operated radio station, WDFM, will hold a workshop at 8 tonight in 121 Sparks for all students interested in working on the staff.

COLLEGIAN CLASSIFIEDS

FOR SALE

FRESHMAN ENGINEERS — good used drawing instruments and other drawing equipment. EL 5-9292.

get Lots More from L&M

more body
in the blend
more flavor
in the smoke
more taste
through the filter

It's the rich-flavor leaf that does it! Among L&M's choice tobaccos there's more of this longer-aged, extra-cured leaf than even in some unfiltered cigarettes. And with L&M's modern filter—the Miracle Tip—only pure white touches your lips. Get lots more from L&M—the filter cigarette for people who really like to smoke.
