

# Misfortune Strikes Crash Survivors

LONDON (AP)—Fire broke out last night aboard the Swiss freighter Celerina as it sailed toward Antwerp with 44 Americans rescued Monday after their chartered Flying Tiger airliner had ditched in the Atlantic.

The British Air Ministry said at least two men aboard the small freighter had been badly burned. It was not specified whether they were crewmen or included any of the disaster-dogged plane crash survivors.

There were no immediate details on the extent and cause of the fire.

The Air Ministry said the Royal Air Force rescue control unit had gotten an emergency call to take off two injured survivors from the Celerina.

But the spokesman added: "It wasn't clear whether they meant survivors from the plane or survivors from the fire aboard the ship."

The RAF immediately mounted a new air-sea rescue operation to help the burned men. It started soon after the abandonment of the joint U.S.-British search for the missing among the 76 persons aboard the airliner that crashed into the stormy Atlantic Sunday night.

The Air Ministry said two RAF

helicopters were ordered out at dawn to pick up the injured from the Celerina somewhere off western Ireland.

The RAF also ordered a Shackleton reconnaissance plane at Ballykelly, Northern Ireland, to take off before dawn to search for the Celerina, pinpoint it, then guide the helicopters to it. Plans called for the helicopters to ferry the injured to Cork, in southern Ireland.

The Celerina rescued 48 survivors from the plane crash, but four of the most seriously injured were transferred to the Canadian aircraft carrier Bonaventure.

In that operation, however, the Celerina picked up a doctor and a medical aid from the Bonaventure.

The slow-moving Celerina had been expected to reach the Belgian port tomorrow night.

The Bonaventure was headed for Shannon, Ireland, to discharge its survivors.

The Bonaventure and British and American military planes broke off the search for other survivors about dusk yesterday. However, it was presumed any commercial vessels in the area were keeping a lookout for survivors.

Sixteen persons remained officially unaccounted for; the evident feeling among bone-tired and discouraged rescue workers was that all of them were lost.

With 12 bodies already recovered, indications pointed to a death toll of 28. Courage and heroism while the passengers went through a ditching drill as the plane plunged toward the stormy Atlantic Sunday night was credited with saving the others.

"There are a total of 48 people who are miraculously alive," the Canadian aircraft carrier Bonaventure radioed shortly before it left the search area for the Shannon estuary.

# Berlin, Cuba Ignored By Rusk, Gromyko

UNITED NATIONS, N.Y. (AP)—U.S. Secretary of State Dean Rusk and Soviet Foreign Minister Andrei A. Gromyko met for more than three hours yesterday but apparently failed to come to grips on the vital issues of Berlin and Cuba.

It was the first meeting of the two foreign ministers since the conference on Laos in Geneva last July. It is expected they will meet again in New York, but no date has been set.

Robert Manning, assistant secretary of state for public affairs, who briefed newsmen on the meeting, said that only Laos and a nuclear test ban had been discussed and that both subjects had been brought up by Rusk.

Asked specifically if Cuba and Berlin had been discussed, Manning replied no.

"The subjects were not brought up," he said.

He said that the United States is undertaking a military withdrawal from Laos as a result of the agreement reached in Geneva, and presumably this was touched upon.

On the nuclear test issue the United States has proposed a ban on tests in the atmosphere and underwater which would not be subject to inspection. Manning gave no indication of Gromyko's

attitude on that proposal, which has not been accepted by the Soviet Union.

Gromyko was affable but not very communicative when he met reporters upon emerging from an elevator in the Waldorf Towers.

"Matters of general interest, including the work of the General Assembly, were discussed," he told reporters in English.

He agreed with U.S. officials that he and Rusk would probably meet again.

## Senate Committee Clears Steel Execs

WASHINGTON (AP)—The Senate Judicial Committee yesterday quashed contempt of Congress charges brought against nine steel company executives accused of defying a subcommittee headed by Sen. Estes Kefauver, D-Tenn.

Kefauver, who has been directing an inquiry into steel industry pricing practices, protested that the Kennedy administration should have been more helpful in pressing the charges.

The Justice Department, headed by Atty. Gen. Robert Kennedy, followed a hands-off attitude on the contempt case being considered in the Senate. It would have been up to the department to

prosecute the case in court if it had reached that stage.

By a vote of 10 to 5 the Judiciary Committee washed out the contempt citations brought by Kefauver's group against four steel companies — Bethlehem, Republic, National and Armco — and nine of their top officials.

The steel executives refused to comply with Kefauver subcommittee subpoenas calling for the production of cost figures. They contended the figures were trade secrets and that a public disclosure would damage their firms competitively. Kefauver pledged that individual firms' figures would not be publicly disclosed.

## Russia to Finance Port Located on Cuban Coast

HAVANA (AP) — The Soviet Union and Cuba plan to build a port somewhere on Cuba's 2,500-mile coastline as headquarters for a joint Atlantic fishing fleet. Fidel Castro announced yesterday.

The bearded prime minister unveiled the plan in a television speech after signing a fishing treaty with Soviet Fisheries Minister A. A. Ishkov. He said the Russians will use the port under a 10-year contract "which surely will continue much longer than 10 years."

Castro said the port will cost 12 million pesos.
