

Pro Musica to Perform Friday For Second Time in 4 Years

By ROCHELLE MICHAELS

New York Pro Musica, a unique 11-member group performing medieval, renaissance and baroque music, will make its second appearance in four years on campus at 8:30 p.m. Friday in Schwab.

Student tickets for the University Artists Series presentation will be distributed from 1:30 to 5 p.m. today at the Hetzel Union desk, and from 9 a.m. to 5 p.m. tomorrow through Friday. Non-student tickets will be on sale beginning at 9 a.m. tomorrow for \$1.25 each.

THE MUSICAL GROUP includes two sopranos, a counter tenor ("male alto"), tenor, baritone and a bass, as well as four instrumentalists specializing in rare instruments like the krumphorn, a soft reed instrument, and the schryari, a bagpipe chanter.

On the group's program for Friday night are English madrigals, Flemish dances, music for the harpsicord, Latin sacred music, Elizabethan songs, Venetian instrumental music and Anglican anthems. All the selections date from the 16th and 17th centuries.

During the past season, Pro Musica attracted international attention for its production of "The Play of Daniel," an opera last performed in 1250.

After a debut performance for 30,000 persons at the Cloisters in New York, the group went abroad to present the opera to audiences

in London's Westminster Abbey and Paris' oldest cathedral, St. Germain des Pres. These were the first performances of medieval music drama revivals outside of this country.

The group appears annually at several New York music halls for special Christmas programs.

Among Pro Musica's more enthusiastic critics, Howard Taubman of The New York Times termed its music a "rare and rewarding experience." He was joined in his praise by Paul H. Lang of The New York Tribune,

who said, "This is a band of devoted musicians whose intent is clear and is carried out with competence and charm."

THE GROUP'S members are Noah Greenberg, musical director; LaNoue Davenport, recorder player; Paul Maynard, harpsichordist-organist; Gordon Myers, baritone; John Ferrante, counter-tenor; Shelley Gruskin, flutist, recorder and krumphorn player; Carolyn Backus and Sheila Shonbrun, sopranos; Judith Davidoff, viol; Ray Devoll, tenor; and Brayton Lewis, bass.

Town Woman Breaks Precedent By Petitioning to Join TIM Council

For the first time in the history of the Town Independent Men's Council, a coed has submitted a petition for membership.

Margaret Umberger (1st-arts and letters-State College) was announced as a candidate at last night's council meeting by Arthur Pergam, TIM president.

PERGAM READ portions of the council's constitution which concerned Miss Umberger's petition. He said that the constitution called for an organization of "the independent men," and that "all male students enrolled as undergraduates at the University are eligible for membership."

Different council members suggested that Miss Umberger be appointed as a non-voting special assistant, a voting member or as a permanent alternate.

The Council's final resolution called for the appointment of a committee to investigate constitutional changes necessary to make Miss Umberger a member with voting privileges.

Miss Umberger said that she was prompted to apply for the council because independent women living off campus have a need for University representation.

There are approximately 140 women students living off campus, Pergam said.

Miss Umberger explained that she was primarily interested in seeing an extensive survey made of all faculty and town families who are eligible to house coeds.

"I want to see TIM keep on working, and I do not want to jeopardize their position by running," she said.

IN OTHER business the Council appointed eight new members. They are R. Allen Wyandt, Thomas Reeves, James Kuhl, William H. Procter, Michael Thompson, Robert Osman, Arnold Yochelson and Richard Tigilio.

Pergam said that there are still three unfilled seats on the council, and that students may apply for these positions.

Faculty May Request Fulbright Grant Forms

Faculty members applying for Fulbright grants for the academic year, 1963-64, should request application forms not later than Monday.

Robert E. Galbraith, professor of English and Fulbright adviser, explains that detailed information on grants and application forms are available through his office in 204 Sparks.

The deadline for submitting the completed application forms is Oct. 26.

TODAY ON CAMPUS

Applications

One hundred additional applications for Junior Class Advisory Board are available at the Hetzel Union desk. Interested students should ask the receptionist for the forms. Applications should be returned to the HUB desk by noon tomorrow.

Spectrum

The Penn State Spectrum, student engineering and science publication, will be on sale today, tomorrow and Thursday. Students may pick up their copies at the HUB desk or gameroom or in the engineering or chem-phys libraries.

Meetings

Herbert A. Smith, who recently was named head of the Department of Secondary Education, will address the first fall meeting of Phi Delta Kappa, honorary education fraternity. The meeting will be held at 5 p.m. in the HUB. Using as his topic, "Some Reflections by an Ex-Bureaucrat on the Issue of Federal Control of Education," Smith will talk on his experiences as a member of the U.S. Office of Education.

Mary L. Willard, professor of chemistry, will speak to the Academic Year Institute members of the National Science Foundation

at 4 p.m. in 105 Walker Laboratory.

Her subject will be "Chemical Microscopy: Its Significance for High School Teachers."

Interested faculty and graduate students have been invited to attend.

First Aid Course

A first aid course aimed primarily at college students will be given by Dr. David R. Maneval, State College physician, beginning at 7 p.m. in 205 Boucke. The course is open to all students. There is no fee.

Other Events

Angel Flight, 7 p.m., 214 HUB.
AWS Central Judicial, 1:30 p.m., 214 HUB.
Block S, 7:30 p.m., 218 HUB.
Education Student Council, 6:30 p.m., 213 HUB.
Marketing Club, 6:30 p.m., 218 HUB.
News and Views senior board, 3:55 p.m., 117 Home Economics.
Panhellenic Council, 6:30 p.m., 203 HUB.
USG International Student Committee, 7 p.m., 217 HUB.
WRA Field Hockey Club, 4 p.m., women's physical education field across from Pollock. Match with Lock Haven State College.
WRA Gymnastics Club practice session, 1:30 p.m., White Hall body mechanics room.

Student-Faculty Directory Combined into One Book

Student and faculty telephone listings have been combined into one directory for the first time. Distribution and sale of the directories begins today.

One of the volumes will be distributed to each faculty and administration phone and to each room of the residence halls. Previously, student directories for distribution to the faculty were limited; faculty directories were not available to students.

Campus distribution is expected to be completed by tomorrow.

SPACE, MISSILE & JET PROJECTS AT DOUGLAS

have created outstanding career opportunities for

SCIENTISTS and ENGINEERS

B.S. degrees or better

Assignments include the following areas:

Servo-Mechanisms—relating to all types of control problems

Electronic Systems—relating to all types of guidance, detection, control and communications

Propulsion—relating to fluid-mechanics, thermodynamics, dynamics, internal aerodynamics

Environmental—relating to air conditioning, pressurization and oxygen systems

Human Factors—analysis of environment affecting pilot and space crews, design of cockpit consoles, instrument panels and pilot equipment

Heat Transfer—relating to missile and space vehicle structures

Structures—relating to cyclic loads, temperature effects, and the investigation of new materials, methods, products, etc.

Aerodynamics—relating to wind tunnel, research, stability and control

Solid State Physics—relating to metal surfaces and fatigue

Space vehicle and weapon system studies—of all types, involving a vast range of scientific and engineering skills
