

Schroeder, Kennedy Agree on Berlin

WASHINGTON (AP) — Foreign Minister Gerhard Schroeder of West Germany conferred with President Kennedy for 90 minutes yesterday and announced afterward "full and complete agreement" on meeting any new Soviet move to drive the West out of Berlin.

But there were grave doubts among both U.S. and German informants that the two nations had produced any formula bridging the gap in their thinking on the two main issues:

•The U.S. expectation that Soviet Premier Khrushchev is planning to whip up a first-rate Berlin crisis after the U.S. elections Nov. 6, a view the Germans think is at least partially motivated by the forthcoming balloting.

•The West German position that any attempt by the Soviet Union to impose visa controls on Western civilian traffic into Berlin should be met with energetic countermeasures, a view the United States does not fully accept.

On the surface, however, Schroeder gave no indication of any such disagreement.

Emerging from Kennedy's office he told reporters: "We find ourselves in agreement on the assessment of the Berlin situation and on the methods to be applied to meet the situation."

Schroeder would not say specifically what subjects were discussed. But in reply to questions he said that West German troops would stand beside the Western

forces in meeting any new Soviet pressure. He also said that all Western nations with an interest in Berlin are taking a firm stand and that he sees no need for new initiatives now.

Asked what effect a possible meeting between Kennedy and Khrushchev might have on the Berlin issue, he said only, "Talks are better than lights."

Ranger Shot Scheduled for Today

CAPE CANAVERAL, Fla. (AP) — With a wary eye on Hurricane Ella, the space agency announced yesterday that Ranger 5 will lift off on its exploratory voyage to the moon sometime after 11:38 a.m. Eastern Standard Time today.

While Ella was churning up 60- to 70-mile winds off the Florida coast and heading for Cape Canaveral, the National Aeronautics and Space Administration Tuesday night called off the Ranger shot until next month. But Ella changed course overnight, turning more northward.

The shot must go off by mid-

afternoon tomorrow or be canceled until about Nov. 13 when the moon again moves into position for the shot.

Morocco Elected Over Nigeria To Seat on Security Council

UNITED NATIONS, N.Y. (AP) — The General Assembly elected Morocco to a seat on the U.N. Security Council over Nigeria yesterday, and thus turned back a bid by black African nations to kill the 1946 "gentleman's agreement" on allocation of seats.

Morocco was elected to succeed the United Arab Republic, thus upholding the tradition that an Arab or Middle East country should retain the council seat at issue.

NORWAY, BRAZIL and the Philippines were elected as other nonpermanent members of the 11-nation council.

Permanent seats on the council are held by the United States, Britain, France, the Soviet Union and Nationalist China.

UNDER TERMS of the gentleman's agreement, two of the nonpermanent seats were allotted to Latin America, and one each to Eastern Europe, Western Europe, the Middle East and the British Commonwealth.

Foreign Minister Jaja Wachuku of Nigeria waged his campaign on a kill-the-agreement platform. He argued that the African nations who make up the bulk of the newly admitted members are entitled to an African seat.
