

Maryland Booters Top Nittanies, 4-2; Phils' Mauch Named Bucknell Provides Opposition Today 'Manager of Year'

By IRA MILLER

Beaten, 4-2, by a powerful Maryland squad Saturday, Penn State's soccer team will make its fourth attempt to hit the win column this afternoon when it meets Bucknell. The contest, to start at 3:30, will be played on the varsity soccer field next to the ice rink.

The Nittanies gave it all they had, but it just wasn't enough against the Terps, who had beaten North Carolina State, 11-1, in their only other game.

Despite the setback, coach Ken Hosterman remains optimistic because the Lion booters apparently found themselves at College Park.

"I was satisfied," Hosterman said yesterday. "We went for the first opportunities on offense, something we hadn't been doing. They found themselves. Now they know they have to hustle and really play well for 88 minutes of every game. A few inches on a couple of shots and the result might have been different."

The Lions, who have yielded at least three goals in each game before scoring, quickly fell behind again Saturday.

The first period was just two minutes old when Terp left winger Jack Ruhs took a pass from All-America candidate Oytion Tertemiz and beat Nittany goalie Jay Robbins. That was all the scoring in the first half.

MARYLAND ADDED two more tallies at the outset of the second half. Frank Marasco scored at 2:30 of the third on a pass from Dave Leftcourt. Five minutes later, Leftcourt set up Richard Roe and the Terps had a 3-0 lead.

George Berzkalns finally broke the ice for the Lions, converting a pass from Val Djurdjevic at 15:00, but before the period was over Tertemiz had scored an unassisted goal to maintain Maryland's three-goal margin.

State's Ed Hinojosa closed out the scoring by ramming in a pass from Ted Jones after ten minutes of the fourth period.

Robbins, making his first start in the nets, turned aside 15 shots while Maryland netminder Ron Williams made 10 saves.

"I was pleased the way they came back," Hosterman said. "They didn't let down when they got behind. I still have a lot of confidence in them."

"They (the Terps) have a pretty potent line and I thought our kids

GEORGE BERZKALNS

ED HINOJOSA

and ... score Lion goals

handled it pretty well. I was especially pleased with Berzkalns. He looked good in there, had foot and all. Overall, most of the kids did a pretty good job," he added.

HOSTERMAN was also pleased with the work of his new goalie, Robbins, who had just four days of practice before the game.

"He couldn't stop some of those goals even if he had a second try at them," Hosterman said. "He did make some nice saves. I think with more experience he'll be all right."

Lion captain Jay Stormer, who missed Saturday's game because of an injured knee, will be able to play against Bucknell today.

Stormer will go back in the lineup at left halfback in place of Lou Paulin. The only other changes from Saturday's starting lineup will have Berzkalns back at center, with John Katona moving to right wing, and Hinojosa replacing Joe Simonetta at inside left.

The rest of the Lion lineup today will show Robbins in goal, Roy Johnston and Bill Manke at the fullbacks, Dieter Heinze and Harry Kline at center and right

half, respectively, Jones at left wing and Djurdjevic at inside right.

THE WORK of fullbacks Johnston and Manke, both making their first start of the year, was another bright spot for State in Saturday's game.

Hosterman also said that he was pleased with the performance of John Buck, a reserve halfback. The Lion coach indicated that although Buck won't start today, he's likely to see plenty of action in relief.

While State's record was falling to 0-3, the Lions' next two foes were chalking up victories. Bucknell (3-1) trounced Gettysburg, 7-1, while Navy (4-0) ended West Chester's 18-game winning streak, 2-1. The Lions play at Annapolis Saturday.

Bill Dahl, a center forward and the Bisons' captain, will lead Bucknell in today's fray. He scored three goals against Gettysburg to raise his season total to 10 (compared to five for his teammates).

Bucknell, coached by Hank Peters, also holds wins over Temple, 2-1, and Lafayette, 4-1. They lost to Elizabethtown, 5-2.

By The Associated Press

Philadelphia Phillie manager Gene Mauch has been named National League manager of the year.

In a poll of the baseball Writers Association, Mauch tallied 33 votes to edge Al Dark of the pennant-winning San Francisco Giants by two. Walt Alston of the Los Angeles Dodgers finished third with 27.

Mauch won the award on the basis of guiding his club to a seventh place finish which included 19 wins in their final 26 games for the hottest streak in the National League. Mauch, in his third season as Philly pilot, was remarkable in his field generalship. The Phillies had finished last his previous two years.

Pitt's Paul Martha and Penn State end Dave Robinson have been named to the All-East football team as compiled by the Associated Press.

Martha won his place on the team with a sterling performance in Pitt's 8-6 win over UCLA. Robinson earned the distinction with his defensive efforts in containing the Syracuse offense in the Lions' 30-19 victory. The 6-3 end also caught a blocked field goal attempt in the waning moments of the game to preserve the win.

Duquesne University officials

have announced that star basketball player Willie Somerset will be lost for the entire 1962-63 season.

Somerset, the only returning starter for the Dukes, sustained an ankle injury in the National Invitational Tournament last year and his presence is doubtful. He was mentioned on some All-America teams following a 19.5 per game scoring average.

Fullback Cookie Gilchrist of the Buffalo Bills has taken over the American football League ground gaining lead according to statistics released by the league.

Gilchrist replaces last week's leader Charlie Tolar of the Houston Oilers who dropped to third behind Abner Haynes of the Dallas Texans.

Gilchrist has gained a total of 529 yards in 97 carries for a 5.4 per rush average.

Masich 14th in E.C.A.C. Tourney

Sophomore Barry Masich, the only one of four State golfers to qualify for the final round of the E.C.A.C. fall golf tournament, shot an 80 to finish 14th in the event at Beth Page Park, Long Island (N.Y.), Saturday.

Dick Karboski of Rhode Island captured the individual crown by posting a three-over par 75. Army won the team championship with a total score of 321. The West Pointers were followed by Rhode Island (322) and defending champ Navy (325).

Lion golf coach Joe Boyle, who accompanied Masich to the tournament finals, said that the weather was ideal but hard greens accounted for the high scores.

"The fairways are lined with

oak trees," Boyle explained, "and many players couldn't find their golf balls among the leaves which had fallen all over the fairways."

While he was waiting for Masich to come down the sixth fairway, Boyle helped one of the golfers from another school look for a lost ball.

"I found three of them hidden in the leaves," Boyle laughed, "but none of them were his."

Lucas on Radio Tonight

Cross-country coach John Lucas and captain Howie Deardorff will be guest sports personalities at 7:45 tonight on Campus Sports Parade (WDFM and WMAJ radio).

SPACE, MISSILE & JET PROJECTS AT DOUGLAS
have created outstanding career opportunities for
SCIENTISTS and ENGINEERS
B.S. degrees or better

Assignments include the following areas:

- Servo-Mechanisms**—relating to all types of control problems
- Electronic Systems**—relating to all types of guidance, detection, control and communications
- Propulsion**—relating to fluid-mechanics, thermodynamics, dynamics, internal aerodynamics
- Environmental**—relating to air conditioning, pressurization and oxygen systems
- Human Factors**—analysis of environment affecting pilot and space crews, design of cockpit consoles, instrument panels and pilot equipment
- Heat Transfer**—relating to missile and space vehicle structures
- Structures**—relating to cyclic loads, temperature effects, and the investigation of new materials, methods, products, etc.
- Aerodynamics**—relating to wind tunnel, research, stability and control
- Solid State Physics**—relating to metal surfaces and fatigue
- Space vehicle and weapon system studies**—of all types, involving a vast range of scientific and engineering skills
