

## Greek Sing Music Changed

Changes in the required songs for the Interfraternity Council-Panhellenic Sing and two appointments to the executive committee were announced last night at the Interfraternity Council meeting.

Leon Klingensmith, sing co-chairman, said "September Song," the required song for fraternity groups, will be replaced. A replacement has not been chosen as yet, he added. The arrangement of "S Wonderful," required for sorority groups, will also be changed. The changes are being made because fraternity and sorority mem-

bers felt the songs were too difficult to perform without accompaniment, Klingensmith said.

IFC President Emil Sos announced the appointment of Board of Control members Gregg Duvall (Chi Phi) and Gary Stiles (Kappa Delta Rho) to the executive committee. Sos said members of the executive committee had felt for some time that the group should be enlarged.

The first official literary-newspaper magazine at the University was the Free Lance, started in 1887.

## Critic Hits Failure to Value New Art

By ELLEN BRADLEY

The most conspicuous failure in art appreciation has been failure to appreciate new and original art, Clement Greenberg, free lance writer and critic, said at the School of the Arts lecture in Schwab Sunday.

New art, especially impressionistic painting, has become an issue within the last 100 years. After a certain point, genuinely new art had to be challenging because it completely upset patterns of taste already developed, he said.

"Each innovating tendency in

art is met with wholesale failure of appreciation. There is suspicion about whether the new is really art and if the creators are really artists," he said.

These failures in appreciation of original art and the subsequent criticism are often founded on illogical considerations, he said.

A frequent criticism of the new in art is that the artist uses novelities to cover up his lack of craftsmanship. The new was denounced as a "deliberate hoax," he said.

"The fact is — a fact that anyone who has become intimate with art should know — it is impossible

to fake in art. This is impossible because no artist in the past has succeeded in overleaping tradition and his own taste so as to create something baffling to his contemporaries," he said.

"The new in art can be new only to the extent that it is plausible. The new asserts itself in the old but does not repudiate it," he said.

### Tarman on Radio

State's sports publicity director Jim Tarman will be the guest personality at 7:45 tonight on Campus Sports Parade (WJFM and WMAJ radio).

**if...**

**You have (or will have) your Ph.D. or Master's Degree**

**YOU MAY FIND THAT A MOVE TO MARTIN WILL BE A MOVE UP IN YOUR CAREER... A MOVE AHEAD TOWARD SIGNIFICANT ACCOMPLISHMENT**

*Important Martin positions for PHYSICISTS, ENGINEERS, APPLIED MATHEMATICIANS and SCIENTISTS with advanced degrees in:*

#### AERONAUTICAL OR ASTRONAUTICS

Dynamics Analysis  
Magnetohydrodynamics  
Flutter, Turbulence

Fluid Dynamics  
Wave Phenomena  
Re-entry Heating Problems

Hypersonic-Rarefied Gas Flow

#### CIVIL

Elasticity and Plasticity  
Random Loading

Plate and Thin-shell Structures

Experimental Stress Analysis of Structures at Elevated Temperatures

#### CHEMISTRY (Physical-Organic)

Non-equilibrium or Aero-chemical aspects of very high speed flight

Radiochemistry  
Hi-temp chemical reactions

Solid State Devices  
Kinetics of reaction  
Plastics

#### ELECTRICAL OR ELECTRONICS

Data Processing  
Solid State Circuitry  
Infrared  
Microwave  
Guidance & Navigation  
Visual Presentation Systems  
Cryogenics

Propagation Problems  
Command & Control  
Plasma Microwave Interactions  
Energy Conversion (Thermoelectric)

Information Theory  
Semi-Conductor Studies  
Advanced Communication Systems Studies  
Automatic Control Systems  
Aerospace Vehicle Electrical Power Distribution Systems

#### PHYSICS, NUCLEAR PHYSICS & SCIENCE

Energy Conversion (Thermionic & Magnetohydrodynamics)  
Electron Optics  
Infrared  
Cryogenics

Acoustic Power Prediction  
Advanced Reactor Studies  
Underwater Acoustics  
Thinfilms  
Radioisotope Fueled Generator Development

Wave Propagation in Solids  
Plasma Microwave Interactions  
Guidance & Adaptive Control Processes

#### PROPULSION & THERMODYNAMICS

Fluid Dynamics of multi-phase gases  
Liquid Rocket Studies

Advanced Space Propulsion Systems  
Mechanical Aspects of Advanced Reactors

Radiation heat transfer problems  
Environmental Systems (ultra-high vacuum)

#### MATHEMATICS (Applied)

Classical Mechanics  
Orbital Mechanics  
Systems Evaluation of Reactors

Theory of Dynamic Programming  
Systems Optimization & Nonlinear Methods

Digital Logic & Adaptive Processes  
Random Signal Theory Studies  
Interplanetary Trajectories

#### METALLURGY

Hi-temp Materials  
Solid-State Devices

Advanced Welding Joining Techniques

Effects of Metallurgical Structures (Creep & Stress Rupture behavior of super-alloy and refractory metals)

#### EXPERIMENTAL OR INDUSTRIAL PSYCHOLOGY (Ph.D.'s Only)

Control-Display Research

Decision-Making Studies

Human Factors Field Evaluation & Analysis of Results

**ON-CAMPUS INTERVIEWS  
NOVEMBER 7, 8 and 9**

Please contact your College Placement Officer for an appointment. If you are unable to attend the interview, write to: J. J. Krajovic, Director, College Relations, Martin Company, Baltimore 8, Maryland.

**MARTIN COMPANY**

Equal opportunity employer

The Aerospace Division of **MARTIN**
