

# U.S. Seeks Ouster Of Cuban Weapons

UNITED NATIONS, N.Y. (AP)—The United States threatened yesterday to take firm action if the Soviet Union fails to carry out its pledge to remove Soviet offensive weapons from Cuba under international inspection.

Adlai E. Stevenson, chief U.S. delegate, told newsmen the United States will take steps to insure compliance on the part of Premier Khrushchev with U.S.-Soviet agreements.

He declined to spell out what measures the United States is contemplating.

WASHINGTON (AP)—Russia has reported that ships are leaving Cuba with missiles aboard, the Defense Department announced last night. It said arrangements are being made for the Navy to check the number of dismantled missiles being shipped out.

This was reported by Arthur Sylvester, assistant Defense secretary. A Pentagon spokesman said probably the first contact between Navy ships and out-bound ships from Cuba would be made today.

He said agreement had been reached on Red Cross inspection of Cuba-bound ships and added there was some agreement also on inspection of ships coming out of Cuba.

Stevenson made the comment after a late afternoon meeting with U.N. Acting Secretary-General U Thant to bring him up to date on the progress of U.S.-Soviet negotiations on the Cuban crisis.

Earlier, representatives of the International Committee of the Red Cross and the United Nations met separately with dele-

gates from the United States, the Soviet Union and Cuba on the inspection problem.

A source close to the negotiations said Red Cross inspection of ships leaving Cuba with dismantled Soviet offensive weapons was also considered.

There was no indication here this would be sufficient to satisfy the United States, which is demanding on-site inspection.

## Elections Roundup—

(Continued from page one)  
Democrat who used to box in college, Birch E. Bayh, Jr. Bayh formerly was speaker of the Indiana House.

It was just about a standoff in the number of governorships one party took from the other, but on the basis of size and political power of the states involved, the Democrats came out on the short end of the trading.

In exchange for Pennsylvania, Ohio, Michigan, Oklahoma, Colorado and Wyoming, the Democrats received New Hampshire, Vermont, Hawaii, Iowa, New Mexico and maybe, by an eyelash, Massachusetts.
