Reeves Elected TIM Secretary

Thomas K. Reeves, (8th-geological sciences - Allentown), was elected secretary of the Town Independent Men's Council last night.

Reeves succeeds Dave Wasson (7th-business administration-New Kensington), who resigned the position at last week's meeting.

In other business, the council voted to appropriate funds for eight TIM-sponsored mixers, to be held at various residence halls throughout the term. The next mixer is scheduled for tomorrow

evening in Simmons lounge. Also, the council decided to sponsor a series of Bell Laboratory educational films this term, which will be shown from noon to 1 p.m. and from 6 to 7 p.m. every Tuesday, from Jan. 22 through March 5, in the Hétzel Union assembly hall. There is no admission charge for the films, which are open to the general public.

When success turns a man's head, he is facing failure.

Engineers & Scientists

Discuss Current Openings with RAYTHEON

CAMPUS INTERVIEWS
JANUARY 25, 1963

See your placement director now to arrange an interview with the Raytheon representative.

Raytheon offers challenging assignments for BS and MS candidates in EE, ME, Mathematics and Physics. Openings are in the areas of:

Tomorrow's job satisfactions...through today's job decision

If your concept of job satisfactions includes responsibility for results, individual recognition, and continuing opportunities for creative contribution, professional careers at Air Products and Chemicals, Inc. will interest you.

Air Products successful record of growth from sales of \$3 million in 1949 to over \$100 million in 1962 results from pioneering advances in cryogenics, leadership in chemical processing, and aggressive marketing.

Our Career Development program places you in a series of responsible positions vital to the Company's continued expansion. In this way, you will have a sound basis for selecting your long-range career interest. Specific assignments in this program include: Engineering, Research, Technical Marketing, Advanced Product Development, Operations, Computer Center, Sales, Finance, and Administration.

Air Products is located in Eastern Pennsylvania within short driving distance of Philadelphia and New York. Advanced personnel programs include graduate study under a tuition refund plan at excellent nearby universities.
