

Tshombe Finally Agrees To Surrender Kolwezi

ELISABETHVILLE, Katanga, (AP) — Moise Tshombe agreed last night to surrender his last stronghold in Katanga — the mining center at Kolwezi — and said he personally would try to talk diehard supporters out of their threats to blow up power and mining installations there.

The Katanga president who kept his province independent from the Congo for two years came to agreement after four hours of talks with U.N. officials here.

ALL ORDERS to blow up vital installations in Kolwezi have been suspended, he announced. His threat to destroy the copper, cobalt and power facilities had held back U.N. forces from marching on the vital mineral center 150 miles northwest of Elisabethville.

U.N. sources in New York said U.N. units already are moving toward the Tshilombe River, about 20 miles from Kolwezi, in expectation of a go-ahead. They were expected to halt at the river until arrangements for their peaceful entry have been completed.

These informants said U.N. officials expect Kolwezi to be in U.N. hands by today or tomorrow at the latest. They said Tshombe

probably would be flown to Kolwezi by U.N. planes to make sure there is no hitch in the take-over.

Since he announced Tuesday his willingness to bow to the U.N. plan for Congo unity, Tshombe had remained in Kolwezi. He flew from Kolwezi to nearby Kipushi, then drove to Elisabethville.

Tshombe drove to the presidential palace, from which he fled Jan. 12, apparently in fear of arrest by central government officials who were arriving in Elisabethville to take over.

'K' Visits Berlin Wall, Invites Brandt To Talk

BERLIN (AP) — Premier Khrushchev visited the Berlin wall yesterday and then invited Mayor Willy Brandt of West Berlin to come talk things over with him.

Brandt reluctantly rejected the bid, blaming pressure from the Berlin section of Chancellor Konrad Adenauer's party, the Christian Democrats.

WASHINGTON (AP) — The influential American Council on Education proposed yesterday a vast and sweeping program of federal aid to develop the nation's colleges and universities.

The 11-point program covers everything: buildings, teachers, scholarships, student loans, aid for foreign students.

The council, representing 1,000 institutions of higher education and 175 national, regional and state education organizations, said details of its proposals might be spelled out at a later date.

The only dollar figure mentioned was \$1 billion annually in matching grants and low-interest loans for construction of academic facilities in both public and private institutions.

This is in addition to the present college housing loan program of \$300 million a year that runs until 1965.

The council acknowledged that it was proposing the use of federal funds for private institutions, including those which are church-related.

"This is nothing new, however, in either principle or practice,"

the council said. "Historically, the Congress and the federal government have drawn no line of demarcation between public and private institutions of higher education when utilizing them in the national interest."
