

Schedule Deadlines Set

The deadlines for filing revised schedules for the spring term at the registration section, 4 Willard, are: graduate students and seniors, Monday; juniors, Jan. 25; sophomores, Feb. 1; and freshmen, Feb. 8.

In order to file a revised schedule for spring term, a student must report to his adviser and list his revised spring term schedule on a new official registration form (No. 2 card), obtain his adviser's signature on the card, print the word "revised" and the date in the lower right corner of the card and turn the card in at the registration section, 4 Willard.

Students who did not file a spring term official registration form (No. 2 card) when they

registered for the winter term may file one according to the above schedule of deadlines and the above procedure. However, in such cases, the cards should not be marked "revised," but should be dated.

Craig To Fill Vacancy On IFC Control Board

Edwin Craig (Delta Tau Delta), has been appointed to the Interfraternity Council Board of Control to fill the vacancy created when Gary Stiles was named chairman.

HUB Gallery Features 73 Swiss Photographs

An exhibition of 73 photographs illustrating the industrial architecture of Switzerland opens today in the Hetzel-Union gallery and will continue through Feb. 10.

Entitled "Swiss Industrial Architecture," the exhibition was organized by the Federation of Swiss Architects and was first

shown at the Royal Institute of British Architects in London.

The Pro Helvetia Foundation of Switzerland and the Embassy of Switzerland, Washington, D.C., sponsor the exhibit. It is circulated in this country under the auspices of the Smithsonian Institution Traveling Exhibition Service and

sponsored at the University by the Department of Architecture.

The photographs show the high industrialization of Switzerland, in an attempt to dispel the popular image of Switzerland as solely a country of yodelling herdsmen, mountain climbers, cheese, chocolates and watches.

TKE THETA CHI

The above named social fraternities of the Pennsylvania State University are concerned over the ever increasing social discord on the international scene today. It has been said that the origin of the international melee existing throughout the world can be traced to the covetousness and mistrusts between men of the same country, state, and town. This, it is said, is the essence of international insurgence, and it is this essence that we all must do our part to correct. The Brothers and Pledges of Tau Kappa Epsilon and Theta Chi, realizing that this is not a job that can be done overnight, feel that it is time they take a step in the direction of better world social relations and are hereby proposing a

IN YOUR FUTURE your living-room may have a wall of light! Electronically controlled, it can be daylight bright or dimmed for decorative mood lighting—turns on at dusk, off at dawn.

For your wall of light...

PLENTY OF POWER WHENEVER YOU NEED IT

This "wall of light" is just one of the ways you may use electricity in the not-so-distant future. But no matter how many such wonders enrich your life, you can count on your electric company to provide plenty of power to run them.

In fact, all over America, investor-owned electric companies, like this one, are building new plants and lines that will double the supply of electricity in the next ten years. We can supply all the electric power the nation will ever need!
