

### Limon To Instruct WRA Dance Class

Jose Limon, noted dance artist, will instruct a master dance class from 3:30 to 5 p.m., Sunday in the White Hall gymnasium.

The Woman's Recreation Association Dance Club under the direction of Helen Hungerford will sponsor the class. All women students and University personnel who are interested in observing or participating may attend.

Participants must wear leotards or gym suits, Mrs. Hungerford said. Women from the College of Physical Education will host the class.

"The purpose of the master class is to enable this critic-acclaimed artist to illustrate and explain his dance technique to students," Mrs. Hungerford said.

**"Will I find exciting, rewarding challenges at W. E.?"**

They happen to be our specialty. Consider just a few of our project areas in Western Electric's role of developing manufacturing techniques for Bell System communications: miniaturization, electronic switching, computer-programmed production lines, microwave radio relay, television telephones, optical masers, data transmission. Working closely with our research team-mate, Bell Laboratories, W. E. engineers are even now creating and implementing communications progress planned for the 1970's—and beyond. You will start participating right away in unique, creative challenges. Oppor-

tunities for rewarding careers are open now for electrical, mechanical, industrial and chemical engineers, and also for physical science, liberal arts and business majors. For detailed information, get your copy of the Western Electric career opportunities booklet from your Placement Officer. Or write College Relations Coordinator, Western Electric Company, Room 6306, 222 Broadway, N.Y. 38, N.Y. And be sure to arrange for a personal interview when the Bell System recruiting team comes to visit your campus this year—or during your senior year.

**Western Electric** MANUFACTURING AND SUPPLY UNIT OF THE BELL SYSTEM   
 An equal opportunity employer  
 Principal manufacturing locations in 13 cities. Operating centers in many of these same cities plus 36 others throughout the U.S. Engineering Research Center, Princeton, N.J. • Teletype Corp., Skokie, Ill. • Little Rock, Ark. • Gen. Hq., 195 Broadway, N.Y. 7, N.Y.
