

Final Exam Schedule Listed

Only those courses listed below will hold final examinations during the final examination period beginning at 8 a.m. on Monday, March 18, 1963, and ending at 9:55 p.m. on Wednesday, March 20. Each final examination period will be 75 minutes long.

Students with two final examinations in the same period or with more than three such examinations on the same day of the final examination period should file a request for a conflict in the Scheduling Office, 2 Willard, between Monday, February 11, 1963, and Friday, February 15. The fee for filing a late conflict examination request (after 5 p.m. on Friday, February 15, 1963) is \$10.

Students with three finals on the same day, but with no actual conflict in exam periods, may file a request for a conflict if they so desire. Such students will be assigned to conflict examinations only in those cases where it has been necessary to create such examinations because of a direct conflict situation. No three-in-one day conflict examination requests will be accepted after 5 p.m. Friday, February 15.

Courses not listed in the following examination schedule may hold final examinations on or before Saturday, March 16, 1963, during a regularly scheduled class period. Conflict requests may not be filed for final examinations given during the regular term.

For courses designated, "SEE LIST," instructors will announce room assignments in class.

In the following schedule, M stands for Monday, March 18; T for Tuesday, March 19; and W for Wednesday, March 20. The second figure represents the period in which the exam will be given. The final item is the location of the exam.
