Soviet Astronaut Killed

- Parachute straps of Soyuz 1 fouled yesterday in landing preparations to earth killing Cosmonaut

Vladimir Komarov, the government announced.

The first announced fatality in space flight of either the United States or the Soviet Union came after the Sovuz, the latest and presumably the most sophisticated of Russian spaceships, had completed more than 4 hours in orbit on its maiden voyage. It was the first Soviet space flight

in 25 months.

The accident cast gloom over the nation and may delay the Soviet race to the moon with the United States as scientists try to find out what went wrong.

Unexplained was why 40-year-old Komarov, veteran of a previous space flight, failed to eject. All Soviet spacecraft are presumed to have built-in safety ejection devices. One possible explanation was that the tangled parachute straps kept the ejection system from working.

Constantine To Meet With GOP

meeting of Greece's coup imposed military government by the end of the week, the regime announced last night. His continued silence has underlined diplomatic reports that he disapproved of the weekend coup.

Premier' Constantine Kollias, installed by the army, said in announcing this over the military radio that political prisoners seized in the Friday military takeover of Greece would be put on trial by "competent courts."

Earlier in the day the regime set up nationwide military courts to try all crimes under martial law but specified those courts would handle only future breaches of military law.

Last night's announcement indicated the several thousand political prisoners including antimonarchist former Premier George Papandreou and his son Andreas would be tried by the regular magistracy or by courts to be specially named.

Johnson Talks With Kiesinger

BONN President Johnson carried to Chancellor Kurt Georg Kiesinger America's consolences on the death of Konrad Adenauer. In a 90 minute visit he also laid out a full program of later discussions on the treaty to halt the spread of nuclear weapons, American troop withdrawals

from Germany and other issues.

It was a mixture of sentiment and practical politics.
There were many in Bonn who said: "The old man would have wanted it that way."

Adenauer, West Germany's first chancellor, died Wednesday at the age of 91. Until his last days he was pre-occupied with world affairs. One of his final acts was to try to get the countries of Western Europe, including France, to react to the latest offer of partnership made by Vice President Hubert H. Humphrey in Bonn last month.

President Johnson also told newsmen after his talk with Kiesinger that he invited him to visit Washington "at Christmas or any other time."

MIG Bases Next Bombing Target

SAIGON The United States added Communist MIG bases to the list of targets in North Vietnam yesterday with bombers pounding two important fields in Hanoi's defense shield. The attacks amounted to a step up that some believe could eventually

bring Red China into the war.

MIG bases have ben avoided up to now because Pentagon officials felt MIG interceptions of U.S. raids on the north were negligible. But there also has been a fear that by bombing these enemy air bases, the United States would force North Vietnamese MIGs to use bases in Communist China from which they could operate more boldly and possibly draw U.S. planes across the border.

U.S. pilots have reported increased MIG activity in the air over the north in the past wek particularly since American planes attacked power plants inside the port city of Haiphong for the first time in the two-year air war last

* * * Railroad Strike Still Threatened

WASHINGTON — Nationwide trucking and railroad labor disputes threatened last night to erupt again. Teamsters Union members voted heavily against a proposed contract settlement in initial returns and rail negotiations

remained in a state of collapse.

Congress appeared ready to step in again if necessary to block a rail walkout, and federal officials kept close watch on the trucking situation which led to a three day national lockout two weeks ago.

Early voting results from about 10 per cent of the

450,000 Teamsters involved were running about 2 to 1 against the trucking contract.

An Associated Press count showed a vote of 27,152 to 14,453 against the three year contract proposal that would give increases of about 70 cents an hour in wages and fringe benefits.

Teamsters now receive from \$3.32 to about \$5 an hour, plus fringe benefits.

Money Problems Block Constitution Reform

HARRISBURG — Gov. Shafer said yesterday that the revenue problems confronting his administration have complicated his drive for constitutional revision but were not insurmountable.

"The question of new taxes always carries emotional overtones" he said at a luncheon briefing session with radio, television and newspaper newsmen from across the state.

"The people always resent taxes and that's understandable. But thatis not an obstacle which can not be

overcome.' He said his call for a limited constitutional convention is not tied in anyway to a graduated income tax 'or any other kind of tax."

The purpose of the convention, he said, was to draft a

new taxation and finance article designed to meet the stresses and pressures of the 20th century.

Two weeks ago Shafer presented a \$1.861 billion budget to the General Assembly but said he needed \$294 million in additional revenue to make ends meet.

The exact wording of the University Senate approval is as follows: "The Senate Committee on Undergraduate Student Affairs approves the IFC-USG proposal for fraternity visitation. This is considered properly encompassed by Senate Rule Z-12."

This rule, which is listed under Student Social Organizations, states, "The Administrative Committee on Student Affairs is authorized to establish a parental permission system to allow students to entertain in and to be entertained in apartments which are used as living quarters by students."

Thus last night's decision by the Senate extended the parental permission regulations to fraternities. They previously applied only

Dench Voted TIM President

By JOHN SHORT

Collegian Staff Writer Town Independent Men's Council elected Edward Dench president at its elections last night. Shortly afterward Dench created a fury when he proposed that TIM refuse to seat Rod Hersch who had previously been ok'd by the council.

Dench, the unsuccessful candidate for Undergraduate Student for Undergraduate

Kenneth H. Dixon, University echnical-service employee representative, announced yesterday that he and members of the International Brotherhood of Teamsters Local #764 have constructed a contract which they will present to the University next week.

The contract proposal will be discussed Thursday at a meeting of 25 employees and Herbert Bright, president of Local #764, at the Holiday Inn.

Dixon said the major provisions of the union proposal request higher wages, a revised job classification plan and re-organization of the job bidding
