

## Vets prepared for college life

Sixty-five Pennsylvania veterans, all lacking the credentials for college admission, arrived at the University last June.

Three months later, after an intensive "get ready for college" course, 57 of the 62 men who completed the course are full-fledged college freshmen. And another veteran is enrolled in a specialized training school.

Thanks to a program offered by Penn State, the veterans were given the opportunity to participate in the 11-week course, designed to correct their major academic deficiencies. Upon completion of the course, the veterans were considered for college admission under special selection criteria.

They range from a 37-year-old Air Force veteran to a 19-year-old Army veteran.

According to Charles R. Meck, assistant director for continuing education who coordinated the program, 55 of the veterans are enrolled for the Fall Term at various Commonwealth Campuses and at University Park. Three veterans are enrolled at other institutions, and four men who completed the course will not immediately continue their education at the college level.

Four of those completing the course, including three enrolled as college freshmen, had never attended classes beyond the eighth grade.

"We have been more than pleased with the success of the program and hope to conduct similar programs in the future," Floyd B. Fischer, vice president for Continuing Education said.

He pointed out that the program offered last summer emphasized written and oral communication, mathematics, reading and social studies.

## Student arraigned

Maureen Caffery, (11-elementary and Kindergarten education) was arraigned before State College District Magistrate

### Logbook

Clifford H. Yorks Wednesday on charges of possession and sale of illegal drugs. She was released on payment of \$10,000 bail. A preliminary hearing has been set for October 6.

According to State College Borough Police, two coeds were the victims of assaults Wednesday night. One attack occurred in the 300 block of East Foster Avenue about 8:50 p.m. The assailant was described as a white male, 25 to 30 years old, about five feet, eight inches tall, with dark brown hair. He was reported wearing a light colored shirt and dark trousers.

The other attack occurred near the Human Development Building about 11 p.m. It was investigated by University Security Police who said the victim's description of the attacker indicated that probably the same man was responsible for both incidents.

A coed reported to Campus Patrol that her wallet was taken from her unattended purse in 218 Arts Building Wednesday. The contents included \$40, a driver's license, a matric card, and a bank identification card.

## Cheese suspected

A cheese product used to prepare veal parmesan is now believed to have caused a rash of food poisoning last week among students who eat in Waring Dining Hall.

According to Robert C. Proffitt, director of food services, the source of the contamination has been

### Bremer term down 10 years

UPPER MARLBORO, Md. (AP) — A three-judge appeals panel yesterday reduced by 10 years the 63-year prison sentence given Arthur H. Bremer for the shooting of Alabama Gov. George C. Wallace and three other persons at a political rally last May.

Bremer displayed no emotion when the reduction was announced by Judge Roscoe H. Parker after almost an hour of deliberations by the three Prince Georges County Circuit Court judges.

Parker said he and Judges William H. McCullough and James H. Taylor had considered the arguments heard yesterday morning, the presentence report on Bremer and the transcript of the Circuit Court trial before making a decision.

But he gave no reasons why the judges decided on the 10-year reduction in sentence.

"Sixty-three years is more than a life sentence," Bremer argued as he read the brief statement which he had written.

"I submit that 63 years is such a sentence that it is not law but terror, the act of a repressive government, the very type of government our fighting men combat in Vietnam," he told the court.

narrowed down to the veal served at the evening meal last Thursday. Samples of meat loaf served at the same meal proved to be free from contamination.

The cheese, a blend of grated parmesan, romano and provolone, is shipped to dining halls in vacuum-sealed cans. Proffitt concluded that impurities "had to originate at the point of production."

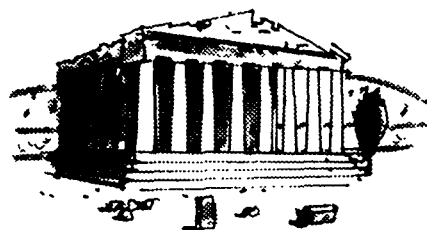

Although the results of all the tests were expected yesterday, the food services

laboratory at that time requested additional samples for further testing. Final results probably will be reported early next week.

According to a survey conducted by West Falls Coordinator David Stewart, 60 students experienced stomach discomfort after eating the meal. However, Stewart said he had no idea how many cases were due to food contamination and how many could be attributed to other causes.
