Garrard 42M turntable

Was \$590
NOW ONLY \$299

SUPERSCOPE QA-420 4-CHANNEL INTEGRATED AMPLIFIER
At last, a high quality four channel amplifier that costs no more than many conventional channel amplifiers. The all new Superscope QA 420 Four Channel Integrated Amplifier's precision circuitry allows reproduction of SQ quadraphonic records as well as matrix decoding for other four channel recordings. In addition to operating as a conventional two channel stereo amplifier, the QA 420's discrete capabilities clear the path for four channel tape recording and provide adaptability to future innovations.
