Amnesty acceptance foreseen

WASHINGTON (UPI) — Charles Goodell, chairman of the presidential clemency board for Vietnam war resisters and military deserters, predicted Sunday that President Ford's earned re-entry program ultimately will be accepted by both pro and anti-amnesty organizations.

"I think the initial reaction of the veterans groups and the representatives of the resisters in Canada ... was predictable," Goodell said.

"They are very sincere, they have very strong views. On the other hand, I think as they see this program operate, assuming it operates fairly, I think a great many of them are going to come around—even the veterans organizations and the resister groups."

But Goodell, interviewed on Washington Window UPI Audio, declined to predict how many resisters might come back from self-imposed exile to take advantage of the earned re-entry program.

Goodell's clemency board, which is scheduled to hold its second meeting Monday, handles only the cases of those already convicted of either draft violations or desertion of the military.

At the same time, Goodell stressed what he believed was the

fairness of Ford's program. He took exception to resisters who claim the program is punitive.

Chile buying U.S. superjets

SANTIAGO, Chile (AP) — Chile is quietly buying supersonic jet fighters and close air support attack planes from the United States in a multimillion dollar arms deal, it was learned yesterday.

Diplomatic and other sources say the military government is purchasing the aircraft and looking for additional weaponry because of concern that Peru may eventually go to war against Chile.

A high source in the Chilean air force confirmed the arms deal but said he is "optimistic" about future relations with Peru's military regime.

Peruvian officials have denied publicly that they want to wage war on Chile, and Chilean officials also have said they maintain cordial relations with their northern neighbor.

Nevertheless, there is concern here that there are a number of Marxists in the Peruvian military who are not friendly toward Chile.

The sources said the Chileans are paying \$60 million for 18 F5E Freedom Fighter jets, the latest model of a fighter especially produced for developing countries by the Northrop Aviation Co. of Hawthorne, Calif.

Syria gets advanced jets

DAMASCUS (UPI) — Supersonic Russian-made MIG23s, the most sophisticated Soviet warplanes shipped to the Middle East, appeared in Syrian skies for the first time yesterday, swooping over thousands of demonstrators in Damascus commemorating the first anniversary of the October Arab-Israeli war.

The jets, delivered to Syria in a massive arms buildup after the October conflict, are so advanced that military experts believe only Syria now has them outside the Soviet bloc. Those in Egypt were withdrawn when relations worsened between Moscow and Cairo.

In Cairo, Egypt's top military commander said his forces have been "preparing the theater of operations for a new round of fighting" with Israel since the latest cease-fire.

"Our armed forces now have become more capable and better prepared than they were before the October war," said Marshal Ahmed Ismail, war minister and commander-in-chief, in a televised speech at the start of a military parade marking the anniversary.

Egyptian President Anwar Sadat said in a magazine interview, however, that peace efforts should be given more time even though Egypt was war-ready.

English bars bombed — 5 die

GUILDFORD, England (AP) — Four teen-aged members of the British armed forces and a civilian were killed in the weekend bombing of two Guildford bars, police reported yesterday.

Sixty-five others were wounded, some of them critically. Police said two of the victims were servicewomen, members of the Women's Army Auxiliary, and two of the men were members of the Scots Guard.

Fragments of the bombs ripped through Saturday night drinkers in this bustling university city. Security sources said the bombings were typical of the underground Irish Republican Army, which is battling to end British rule in Northern Ireland.

Both bars were regular haunts of off-duty servicemen from neighboring military towns.

The bombings brought immediate demands from the rank and file members of the opposition Conservative party for restoration of the death penalty for terrorist offenses. Britain abandoned hanging for murder in 1968.

Fighting reported near Hue

SAIGON (UPI) — Vietnamese Communist units continued hitting government forces near Hue yesterday, with military spokesmen reporting two ground attacks and three shelling in areas from eight to 18 miles south of the former imperial

capital in the north of South Vietnam.

In Saigon, meantime, an estimated 3,000 Catholics demonstrated late last night demanding that President Nguyen Van Thieu put an end to corruption in official places.

Redemptorist Father Tran Huu Thanh, leader of the protest movement, demanded that Thieu and his chief aide, Hoang Duc Nha, answer for what the priest called "crimes against a starving nation."

The spokesmen said the fighting cost government infantrymen three killed and 27 wounded while Communist losses were put at eight dead.

The spokesmen said 21 of the government troops were wounded in fighting when North Vietnamese and Viet Cong soldiers charged them under a hail of 54 rounds of mortar fire near Phu Loc, a town 2 miles southwest of Hue, 400 miles north of Saigon.

Japanese protest U.S. ship

YOKOSUKA, Japan, (UPI) — Demonstrators from Japanese labor unions and three opposition political parties marched through Yokosuka's streets for three hours yesterday, demanding that the U.S. Navy aircraft carrier USS Midway be withdrawn from Japan.

The demonstration concluded shortly before Japanese news media began carrying reports that a former U.S. Navy admiral had testified before Congress that American warships were carrying nuclear weapons into foreign ports, including Japan.

The reports on alleged testimony by retired Adm. Gene Robert Laroque drew immediate adverse comment from officials at communities near U.S. military bases in Japan. Japan's ruling Liberal Democratic Party (LDP) has long maintained a public policy that Japan would not build nuclear weapons, harbor them, or allow other countries to station them in Japan.

Opposition parties said they would press the government in the Diet parliament on the statements attributed to Laroque.

The demonstration, timed for the first anniversary of the Midway's arrival at the U.S. Naval base at Yokosuka, 32 miles southwest of Tokyo, was sponsored by Japan's Socialist, Communist and Komei political parties.

Engineers: Find out about the Nuclear Navy.

If you think you have the ability and desire to master nuclear engineering, the Navy's Nuclear Propulsion Program has openings for about 200 outstanding college graduates. There's a Navy Recruiting Officer ready to give you all the details on how you can become someone special in the new Navy.

Women oppose Holt amendment

WASHINGTON (AP) — The House has adopted an amendment to an education appropriation bill that women's groups say would block enforcement of sex discrimination legislation.

The Holt amendment would block money in a one-year supplemental HEW bill from being used to compel schools to collect statistics about teachers or students according to race, religion, sex or national origin.

Without statistics backing up the women's contention that they are cheated out of an equal share of federal educational programs and teaching jobs, Ms. Hughes said, HEW can't enforce the law.

MEETING AN OLD FRIEND ...

Someday You Will Want To Remember ...

ONE BOOK IS WORTH A THOUSAND WORDS

Order your 1975 yearbook at the *La Vie* table on the main floor of the HUB by the ballroom Oct. 7-11, 9:30 a.m. to 4:30 p.m.

Senior Book — \$9.00

Underclass Book — \$7.00

The Authentic French Restaurant
Superb French cuisine, fine selection of imported wines combined with excellent service.

All in a quiet and totally relaxing country French atmosphere.

Dinner served beautifully from 5 p.m. nightly.

Res. 237-3449
214 W. College Ave.

ABOUT ECKANKAR

ECKANKAR is the All-Embracing Force, the spiritual Source of everything that comprises life. This is why we follow the path of ECKANKAR, for it is the mainstream and closest to the pure teaching derived from the Ocean of Love and Mercy, or God, poetically speaking.

The whole idea of the ECK is to help clear the individual of his human and spiritual aberrations in a more normal manner than any of the so-called sciences of the mind today. This is proven possible, for the Master will teach the chela how to get himself beyond consciousness of human activity.

Each Soul can be liberated so that it may stand upon the high summit of the spiritual mountain and view the world. This is a symbol of the understanding that each chela in the ECKANKAR will reach. This is eternity — the view from the hilltop of spiritual vision. The eternal view that is seen is the wholeness of life, free from time and space of the lower worlds.

Without actual participation in the ECK life stream, no one can ever escape the net of karma and reincarnation or ever become free and happy.

Wisdom comes through making contact with the cosmic light and sound. This is chiefly the result of Soul experience. When one has transcended the body, he eventually comes to the world's of wisdom and love. He absorbs the spiritual knowledge which flows in and around the Soul body, which is useful in making his life on both the spiritual planes and in the earth worlds into better channels. Anyone who successfully leaves his body and returns to it by his own initiative can validate this point.

Man is a god clothed in rags, he is a master of the universe going out begging a crust of bread. He is a king prostrated before his own servants, a prisoner walled in by his own ignorance. He could be free. He has only to walk out of his self-constructed prison, for none holds him there but himself.
