

Student testifies at Fromme trial

SACRAMENTO, Calif. (UPI) — Lynette Fromme shouted, "It wouldn't go off" as a Secret Service agent disarmed her after she thrust an automatic pistol towards President Ford, a college student testified yesterday.

The witness, Susan Folsom, said she was about to shake hands with Ford as he greeted well-wishers in Capitol Park when agents pounced on the Manson cultist and wrested away the .45-caliber pistol.

Folsom said she was standing next to the red-robed Fromme before she drew the weapon and tried to point it at Ford. She said she heard the spindly defendant shout, "It wouldn't go off," as she was disarmed "on the ground behind the line of people."

Agent Larry Buendorf, who disarmed Fromme,

had quoted the defendant as saying, "It didn't go off. Can you believe it? It didn't go off."

Folsom, a student at Consummes River Junior College, said Fromme "seemed surprised to me."

Earlier, a grocer testified that Fromme told people in his store, "I hate Ford," the day before his trip to Sacramento.

Grocer Ed Louie said Fromme interrupted his conversation with a neighborhood youngster at his store Sept. 4. He said he asked the boy whether he planned to see the President at the state Capitol.

Fromme, he said, then broke into the discussion and declared, "I hate Ford."

A former associate of convicted mass killer Charles Manson testified that Fromme told him last summer it was "probable that some people may

have to be killed to set examples" if environmental pollution wasn't halted.

Fromme was not in the courtroom to hear the testimony. She boycotted the trial for the second day after blindfolding herself and being carried to the courthouse by a U.S. marshal in a repeat performance of her action Monday.

She made a brief appearance before the jury entered but turned down another offer by Chief U.S. District Court Judge Thomas J. MacBride to allow her to return to the courtroom. Again she chose to remain in a holding cell equipped with closed-circuit television monitors.

"Your honor, my defense is the defense of the world. Without Manson, I am dead," she insisted during the brief session.

You can sometimes control the direction of the ball by where it hits your paddle. If it hits the center it will go straight. If it hits the right edge, it will go right, etc. Flicking the paddle to get a spin might work but is less controlled.

Avoid the sharp angle shots since they tend to slow the ball and are easy to return. The most effective angle shots are those that rebound closest to your opponent, the deadliest being the shot that rebounds just as it hits his line of play.

Shots down the middle are boring and slow. However, late in the rally after the ball has speeded up, a middle shot can be a killer if used deliberately to surprise your opponent.

AND THEN . . . PRACTICE UP WHERE YOU SEE THIS SIGN.

THE AWARE SHOPPER
By Barbara Sullivan
A&P Director of Consumer Affairs

What's In It For You?

What can a shopper do when confronted with a buying decision between two different brands where everything seems the same: product, size and price? To add to the difficulty of the decision, both brands have been tried before and are equally acceptable.

The best advice is to check the ingredient listing. Manufacturers are required by law to list the ingredients of canned and frozen foods in the order of decreasing content. Therefore, if you're looking at two cans of beef chunks in gravy and one can reads, "beef with gravy" while the other reads, "gravy with beef", the first can is the better buy. Unless, for some reason, you are interested in paying a premium for gravy.
