# ELECTRONIC CALCULATORS

Texas Instruments Professionals.

## New Hewlett-Packard HP-25C Scientific Programmable Calculator with Continuous Memory. \$200.

Retains your programs and saves your data—even when you turn it off!

The great new HP-25C is the first scientific calculator you can turn on and off as often as you like without losing your programs or stored data.

You can store and retain programmed solutions to any repetitive problem—from long, complex problems to hyperbolics, statistical functions, octal-decimal conversions, degrees-minutes-seconds addition and much more. Constants, statistical data, etc., may also be saved indefinitely in the eight addressable memories.

The new HP-25C is identical in every other respect to the popular HP-25. You get:

**72 functions and operations.** All trig functions in radians, degrees and grads; rectangular/polar conversions; logs; etc.

**Keystroke programmability.** Enter your keystrokes once. Then enter only the variables each time.

**Full editing capability.** You can easily review and quickly add or change steps.

**Conditional branching.** Eight logic tests let you program decisions.

**8 addressable memories.** And you can do full register arithmetic on all eight.

**Fixed decimal and scientific notation—plus engineering notation** which displays powers of ten in multiples of  $\pm 3$  for ease in working with many units of measure—e.g., kilo ( $10^3$ ), nano ( $10^{-9}$ ), etc.

Come in and try the HP-25C today.

## New! A pocket calculator specifically designed for complete business management!

Hewlett-Packard's HP-22 puts an ideal combination of financial, mathematical and statistical functions right at your fingertips. \$165.

The new HP-22 is an indispensable management tool that lets you perform—easily, quickly and dependably—virtually every computation you need in modern business management from simple arithmetic to complex time-value-of-money problems to planning, forecasting and decision analysis.

▪ Remarkable Owner's Handbook. A clearly-written survey course in modern management problem-solving, analysis and planning. See and try the new HP-22 today. Only \$165.

- Automatically computes discounted cash flow; percentages; compound interest; remaining balance; annuities; depreciation; statistics; rate of return; amortization and more.
- Expanded percentages capability.
- 19 memories. 5 financial memories, 4 operational memories, plus 10 addressable memories for data storage and register arithmetic.
- Full decimal display control.
