"For me, life really began 13 years ago with breast cancer."
Martha Knighton, Model

"I know that sounds strange, but I do more now than ever before. Modelling is one. And it's proved that having a breast removed is not the end of the world nor does it 'de-feminize' you."
"I still swim, play golf, water-ski—everything I did before. No better, but no worse because of my mastectomy. I also have six children. And, believe me, that's a full-time job in itself."
"Examine your own breasts. Have regular checkups. And please give to the American Cancer Society. We want to wipe out cancer in your lifetime."
