

# Bill Green

## Democrat for Senator

### It's the Man . . . Against the Money

Bill Green was the first Pa. Congressman to oppose the War in Vietnam. He fought the leaders of his own delegation at the 1968 Dem. Convention in support of the Peace Plank.

Bill Green fought the machine politicians. As chairman of Phila. Dem. Party he sought to institute far-reaching reforms. He ran against Frank Rizzo as an independent-reform candidate for Mayor. The machine attempted to drive him out of Congress. But Bill Green beat them because the people had the final vote.

Bill Green has agreed to abide by the spending limits in the Clean Election Act, because he doesn't think that elections should be bought by candidates.

Bill Green led the successful fight to repeal the Oil Depletion Allowance, a \$1.7 billion tax dodge for Big Oil.

Bill Green has a 100% voting record in support of education.

Bill Green has urged the House Ethics Committee to continue its probe of illegal oil company contributions, particularly to Hugh Scott.

Bill Green has the highest rating of any Pa. Congressman from the League for Conservation Voters.

Bill Green has opposed the wasteful and unnecessary defense gimmicks such as the B-1, F-111 and ABM.

Bill Green has a 100% voting record in support of legislation for Senior Citizens, and has fought for Social Security increases.

Bill Green has consistently supported efforts to better the life of rural Pennsylvanians. He supported rural electrification funds, rural water and sewer funds, and flood relief for the victims of Hurricane Agnes in rural counties.

His opponent, under pressure from Nixon, voted \$400 million to bomb Cambodia, and voted against the Mansfield Amendment to end the war the one time it had a chance of passing.

His opponent has *never* faced a primary opponent in his Congressional races, and each time has been the hand-picked choice of the Allegheny County Republican Organization.

His opponent has indicated that he is willing to spend almost \$2 million from his personal fortune to buy this election.

His opponent received \$6,000 in illegal, unreported, cash contributions from Gulf Oil.

His opponent supported Nixon's illegal impoundment of education funds.

His opponent has consistently refused to take a position on investigating Scott and Big Oil.

His opponent opposed the creation of the Energy Trust Fund, and voted to increase the price of oil.

His opponent supported further funding of the B-1 and has a consistent record of support for extravagant defense appropriations.

His opponent, following the lead of the Nixon-Ford White House, voted to deny these increases to the elderly.

His opponent voted against all three of these bills, including flood relief.

## Big Oil already has enough Senators . . .

### Isn't it time the people had one?
