Among the summer fix-up projects on campus this summer is the torn driveway (above) between the HUB and McAllister building. The drive is being torn up in preparation for landscaping work. New sidewalks have been laid outside of

Waring Hall (above left) as part of the remodeling of West Hall's quad. A workman lays bricks along the curb of Pollock Road across from Willard building (left).

## Summer repair jobs underway

Summer students have had to side-step a few workmen and construction sites in the past few weeks because of seasonal university repair and landscaping projects.

There are several major projects scheduled specifically for the summer because of the favorable weather, according to Physical Plant scheduling manager Philip E. Witmer.

Sidewalks and curbing are scheduled to be replaced in many areas on campus, Witmer said. He said the replacement of sidewalks and exterior steps will accompany landscaping planned for the West Halls quads.

Several dorms and dining halls will undergo minor interior painting, Witmer said, and McKean and Pennypacker will be completely repainted inside.

He added that some exterior painting and woodwork will be performed on several campus buildings during the summer. The painting on some of the smaller buildings, such as Pine and Birch cottages, has already been completed, Witmer said.

In addition, landscaping will be done in various locations such as the HUB and the engineering research units, Witmer said.

Witmer said these projects are being done now because of the good weather, not because of the reduced student population.

Many of the projects were begun as early as April and may be completed as late as October, depending on the weather, Witmer said.

# Hewlett-Packard Headquarters

Today, Hewlett-Packard calculators are hailed as the First Family worldwide by Nobel Prize winners, USA astronauts, explorers, educators, scientists, businessmen, and students. This means you're assured of the best in design, performance, reliability, and support. Examine Hewlett-Packard's First Family and you can see for yourself.
