Stealing a phone call isn't a game.

Most students play by the rules when placing a long distance call. They take advantage of bargain rates and make their calls during the discount periods. If you're not sure when you can call at discount rates, check your phone book.

A few students think it's O.K. to break the rules by stealing their telephone calls. They're not beating the system, they're taking advantage of all of us, because it drives up the cost of providing telephone service.

Students who break the rules also run the risk of paying a large fine. Spending time in jail. And getting themselves a permanent police record.

It's just not worth it!
