Speaker recalls legislators' telephone credit cards

HARRISBURG (AP) — House Speaker K. Leroy Irvis said yesterday he is cracking down on state legislators' telephone credit card privileges because the cards apparently have been used in some instances for personal calls.

Irvis' decision to temporarily recall the 25 cards was an unusual move, since the credit cards fall under the

control of House Chief Clerk Vincent Scarelli, the man who hands out House expense money.

"Scarelli may not be happy about us recalling the cards, since technically it's not the responsibility of the Speaker's office to do this," Thomas Smith, an aide to Irvis, said.

Irvis said he is recalling the cards and will reissue

them later along with stricter guidelines for officers of the House, House leadership, committee chairmen and top senior House staff personnel.

The Philadelphia Inquirer last month detailed how some legislators were building up large monthly phone bills as a result of personal calls apparently being made with the credit cards.

Groups untangling party costs

The Association of Residence Hall Students and the Organization for Town Independent Students still are trying to decide who paid what for the summer Arts Festival party.

According to Jeff Glazier, ARHS president, they are waiting for a letter from Tom Andress, ARHS summer treasurer, who is on a ship somewhere, to help clear up the situation.

The party was held last summer between ARHS and OTIS and half of the \$425 original budget set for the party was to be paid by OTIS, according to Marjorie Murphy, ARHS summer president.

Glenn Meyer, OTIS president, said ARHS has the money and until they get their own books in order, it's their problem.
