Fighting in Zambia is slacking off

guerrilla leader Joshua Nkomo yesterday said fighting in Zambia against invading Salisbury troops has died down and charged "those savages have come here to wipe out children."

Nkomo also said the Rhodesians were keeping at least six helicopters in Zambian soil as late as yesterday and denied Salisbury claims of 1,500 dead in three days of bloody air and ground strikes that began Thursday.

In Washington, the State Department said it continued "to deplore the intense fghting now taking place in and outside of Rhodesia.

"The escalating violence deepens our concern about future developments in the area and reinforces the need for progress toward a negotiated settlement

of the Rhodesia problem," a spokeswoman said.

Nkomo refused comment on official Radio Zambia reports that Zambian troops had joined the guerrillas in fighting the Rhodesian troops, saying only, "The Zambians are the defenders of this country."

Since the radio announcement Saturday that Zambian forces were involved in the fighting, the radio has dropped references to the conflict and is virtually ignoring the issue. Nkomo heatedly denied a Rhodesian

military communique that estimated more than 1,500 persons were killed in the strikes against more than a dozen guerrilla camps in Zambia and Mozambique.

"Fifteen hundred my foot. Those

savages have come here to wipe out children. Why can't they admit it?" the burly 61-year-old co-leader of the guerrillas' Patriotic Front said.

"The fighting has died down. There are still six (Rhodesian) helicopters there. They are licking their wounds. If they want to come again they will get it," Nkomo said.

Nkomo said his own count of guerrilla casualties was 95 injured and 192 "missing" fom the Mkushi camp, near Zambia's northern border with Zaire. An American reporter flown into Mkushi by Rhodesia counted some 50 bodies at the

The guerrilla leader also said his men shot down nine aircraft and inflicted "heavy casualties" in intense fighting. Rhodesia has said only one of its soldiers

was killed and one helicopter crashed "over difficult terrain."

Nkomo, who said the Mkushi camp had held 1,601 girls and 32 men, showed reporters two black girls who said they had survived the Rhodesian air and land attack Thursday.

One girl, in her mid-teens, had her left foot bandaged and said she had been "burned by napalm."

"I was hiding behind a tree" when the attack began, she said. "I ran and there was no where to go where there was nothing burning.

The girl said weaponry at the camp was limited to 42 semi-automatic rifles, one light machine gun, two rocket propelled grenade launchers, bazookas and five Soviet-made AK-47 assault

Rhodesia seizes Zambia airways

SALISBURY, Rhodesia (UPI) — Rhodesia said yesterday it seized control of Zambian air traffic at the start of its anti-guerrilla raids last week.

To prove it, The Rhodesian Broadcasting Corporation treated the public to a broadcast of radio traffic between Rhodesian war planes and the control tower in the Zambian capital of Lusaka.

The exchanges were conducted Thursday when Rhodesian bombers pounded what the military comand called a black Rhodesian guerrilla base 12 miles north

"Rhodesia has no quarrel with Zambia or her security forces. We therefore ask you not to intervene or oppose our attack. However, we are orbiting your airfields at this time and we are under orders to shoot down any Zambian air force aircraft which does not

comply with this request and attempts to take off. "Did you copy all that?" the pilot asked. When Lusaka control tower replied in the affirmative, the

officer said: "Roger, Thanks, Cheers," At one point, the controller asked "Green leader" for permission to have two civilian aircraft take off and a Kenya Airways plane to land. "Green leader" asked for everything to remain still for a while.

Then, "Green leader" headed back home and handed control of Zambia's air traffic to "Dolphin Three." which asked the tower to keep civilian aircraft on the ground another 10 minutes.

Rhodesia radio said the Kenyan airlines captain, not knowing why he was being held up, asked impatiently:

"Who has priority here, anyway?" "I think the Rhodesians do at this time," the con-

In eastern Rhodesia, guerrillas Friday night blasted a railroad bridge at Tsungwizi, disrupting rail traffic between Salisbury and the border city of Umtali, military sources said.

But communiques on violence on Rhodesian soil were withheld as white Rhodesians rejoiced over the antiguerrilla strikes carried out in both Zambia and

The military command said a total of 12 guerrilla installations were struck in Zambia alone and more than 1,700 people, including the 226 guerrilla leader Joshua Nkomo said were killed at the camp outside Lusaka, may have been slain.

Helicopters flew over Salisbury yesterday bringing back documents and equipment captured in Zambia.

Navy divers find body in cutter wreckage

REEDVILLE, Va. (UPI) - A team of Navy and Coast Guard divers recovered one body yesterday near the sunken Coast Guard cutter Cuyahoga in their search for the 11 crewmen presumed drowned in a collision with an Argentine coal freighter.

mediately known.

Coast Guard officials conceded privately it may take days to find all the bodies, since many may have been swept far away from the site of the accident Friday night in Chesapeake Bay at the mouth of the Potomac River.

'The current in that area runs at more The victim's identity was not im- than two knots," said a chief petty officer at the bayside town of St. Inigoes.

Still, there was a stubborn reluctance among the searchers to admit that no one was left alive in or near the wreckage of the 50-year-old Cuyahoga, once a proud member of the Coast Guard fleet but lately used only for training.

"Don't say that," a boat coxswain snapped at an observer who speculated the search might proceed at a more leisurely pace now that the men were almost certainly dead.

"Those guys never had a chance," said a wetsuit-clad seaman of the 11 men who had been written off by all but a handful of friends and family.

A Coast Guard vessel Saturday night towed back to St. Inigoes the 17-foot utility boat that saved 18 survivors.

UNIVERSITY CALENDAR

Monday, October 23

SPECIAL EVENTS

First day for signing winter term NDSL and University Long Term Loans, Room 108 Shields.

Last date for November graduates to deliver theses to Graduate School Office. Last date for Departments to certify to Graduate School completion of required papers for November graduates.

Last date for November graduates to order cap, gown and hood locally. France-Cinema, L'Atalante and La Soufriere, two complete showings, 7 and 9 p.m., Room 112 Kern. Sigma Delta Epsilon Lecture. Thomas F. Massaro, nutrition, on "Malnutrition

in the Neonatal Environment: Behavior Consequences," 8 p.m., Room 101 June Miller, organ, 8:30 p.m., Music Bldg. Recital Hall.

Meetings:

Alpha Phi Omega, 7 p.m., Room 106 Boucke. ARHS, 7 p.m., Room 306 Boucke. HOPS, 7 p.m., Room 316 Boucke.

Inter-Varsity Christian Fellowship, 7 p.m., Eisenhower Lounge. Pa. Legal Society, 7 p.m., Room 165 Willard.

Science Fiction Society, 7:30 p.m., Room 174 Willard.

YMCA, class in aerobics, 7:30 p.m., Room 317 Boucke.

Rehab Education Organization, 7 p.m., Room 102 Chambers. Folklore Society, 7:30 p.m., Room 119 Boucke.

HEAVY DATE

Appointment With The Future For Engineering Grads

Engineering opportunities exist at Hughes Aircraft Company, Culver City, California, in its Electro-Optical & Data Systems Groups, for graduates with the following degrees:

- BS in EE, Comp Sci, MEMS in EE, Comp Sci, ME
- PhD in EE

The positions involve the development of advanced electro-optic and space sensor systems, laser systems, and airborne computers and software. Opportunities are available in the following specialized areas:

> Analog & Digital Circuit Design Hybrid Circuit Design Systems Analysis Systems Engineering Signature Technology Pattern Recognition Image & Information Processing **Computer Architecture** Scientific Programming E.O. Sensor Design **Optical Systems Design** Signal Processing Circuit Design Structural Dynamic Analysis Mechanical Product Design Servo Design

Positions are also available for BS graduates on our Masters Fellowship Work-Study and our Engineering Rotation Programs. For details, interested graduates are requested to schedule interview appointments with our recruiter. Your placement office will schedule you for our recruiting visit on Wednesday, November 8, 1978.
