

College Basketball Roundup

No. 7 LSU stuns Kentucky

By The Associated Press

After all these years, they were saying it would be a freak for Louisiana State to beat Kentucky's basketball team at Lexington.

That's actually what it took Saturday night.

Using what they called a "Freak Defense", the Tigers beat the Wildcats on their home court for the first time in history with a tingling 93-89 decision.

"We practice it a lot, but this was the first time we've used it," said Dale Brown, coach of the seventh-ranked Tigers. "It's a three-man zone in the back, where we form a triangle, and we play the guards man for man. It worked pretty well for us tonight."

The unique defense helped break the backs of the ninth-ranked Wildcats, and complemented an offense led by DeWayne Scates, who scored 25 points.

"We played composed and that really had a lot to do with the win," said Brown. "We shot some miserable free throws in the first half (7 of 16) and I told the kids we would just have to forget about that. And they did."

Three other Top Twenty teams were not as composed Saturday

night. Iowa upset 13th-ranked Michigan 85-79; Georgia edged No. 18 Mississippi State 69-67 and Wake Forest defeated No. 20 Maryland 66-60.

Elsewhere, top-ranked Michigan State defeated Minnesota 69-62; No. 2 Notre Dame stopped Villanova 75-64; No. 3 North Carolina tripped Virginia 86-74 in two overtimes; No. 4 Illinois swept past Northwestern 74-56; No. 5 Duke trimmed Tulane 74-64; No. 6 UCLA whipped Rutgers 78-57; No. 8 North Carolina State routed 15th-ranked Long Beach State 100-73; No. 11 Indiana State beat West Texas State 98-77; No. 12 Georgetown hammered Samford 73-50; No. 14 Arkansas nipped Houston 62-61; and No. 16 Louisville turned back Southwestern Louisiana 73-60.

Kentucky had an eight-point lead at one stage late in the game, but had problems against LSU's "Freak Defense" and was able to score merely six points in 8½ minutes. The Tigers, meanwhile, were scoring 25. Later, Elhan Allen's two free throws with one second remaining nailed it down for LSU.

"That scoring streak was the big turning point," noted Kentucky Coach Joe Hall. "Right at the last, there probably were some things that

could have been called that would have swung the game our way. But I give credit to LSU. They played well and shot well (61.8 per cent). They hit their free throws down the stretch and did what they had to do to win. They've got a great future."

Ronnie Lester scored 29 points, including six straight free throws in the final 90 seconds, to lead Iowa's upset of Michigan. With 8:50 left, Michigan held a 62-61 margin, but then Lester took command of the Hawkeye offense — scoring eight points and dishing out two assists to lift Iowa into a 75-70 advantage. The Hawkeyes never trailed thereafter.

Mark Slonaker's controversial tip-in at the buzzer gave Georgia its victory over Mississippi State. Mississippi State, losing for the second time after eight victories against opposition outside the Southeastern Conference, claimed that Slonaker's basket had come after the final buzzer sounded.

Frank Johnson and Mark Dale combined for 41 points to help Wake Forest upset Maryland. The Deacons, normally a fast-breaking team, played a ball-control style most of the game.

Icers drop Drexel, 5-2

By A. J. SPIEGEL

Daily Collegian Sports Writer

Enroute to Mechanicsburg: "Hey," a player shouted from the back of the van, "how good is Drexel?"

Mark Horgas, the assistant coach, lifted a hand from the steering wheel and gave the thumbs down sign.

Defenseman Gary Dent said, "We're gonna win this game."

The icers won 5-2 despite some questionable officiating.

"The players shouldn't even know the referees are there," said coach Clayton John. "They (the refs) are there to keep the game under control."

"When they make bad calls the

players get angry. That takes away from their concentration," John said.

Penn State scored two goals in the initial period. The first resulted from a shot in the slot by Dave Brodie, at 3:46. The second was a power play goal by Dave Brubach with 2:28 remaining in the period while Drexel's Dino Scanzell was off for holding.

Jerry Fry scored Penn State's third goal on the power play at 15:42 of the second period. Seconds earlier, while the Lions were shorthanded, Fry almost scored but the puck slid through the crease.

Up until the third period Heppner was bidding for a shutout. He averted several of Drexel's two on one breakouts.

Then, with 15:13 remaining in the game, Willy Rapp scored. Drexel's second goal was a shorthanded breakaway. At 5:22 into the final period, Bob Criscuolo won the face-off and got the puck to John Kelponis who sent Scott Schaeffer in alone.

With 10:42 left in the game, Joe Battista set up Horgas for the Lions' fourth goal.

A minute and ten seconds later Randy Fardelmann received a tripping penalty which could have cost Penn State a goal as John Grainda was breaking for Drexel's net. However Fardelmann made up for his mistake by scoring a power play goal with 7:35 remaining.

Do you get lower marks than you could on exams? Do you freeze up, or get distracted by worrying, even when you're prepared for a test? Free training to help with this problem is available. Call 863-0395 and ask about the Test Anxiety Program.

All-star lineup.

Slimline TI-50™

TI-55

Slimline TI-25™

Performance and price are the keys in choosing a calculator. One of these Texas Instruments slide-rules is right for you.

Capability. Quality. Value. The right combination can help you make short work of problems in fields like math, engineering, science and business statistics and give you more time for other important things. Choose the TI calculator that's right for you and get ahead of the game.

TI-55. Advanced slide-rule functions with statistics, programmability and valuable problem-solving applications book.

The versatile TI-55 calculating system is packed with the features and functions you need to handle almost any mathematical operation, from logarithms and trigonometry to advanced statistical problems. Thirty-two steps of programmability add new dimensions of accuracy, speed and ease to performing repetitive calculations and "what-if" analyses. You just teach the TI-55 a series of operations and it performs those steps for you.

For more help in making quantitative decisions, the TI-55 comes with the *Calculator Decision-Making Sourcebook*, a \$5.00 value. The book, 140 pages of easy-to-understand, real-life applications,

shows you how to use the power of statistics, financial math and programmability in analyzing relationships in data, verifying quality and performance, measuring change, forecasting trends and projecting returns...in short, how to make better decisions, today and tomorrow. Calculator and book combination, only \$50.00*.

Slimline TI-50. A powerful, stylish slide-rule with new Constant Memory™ feature.

The pocket-portable Slimline TI-50 is today's most powerful liquid crystal display (LCD) slide-rule calculator. It has 60 functions including common and natural logarithms and six trigonometric operations that can be performed in three angular modes (degrees, radians or grads).

Seven built-in statistical functions make it easy to "boil down" large amounts of data so you can perform accurate analyses and draw reliable conclusions.

Two constant memories retain their contents even when the calculator is turned off, so frequently used constants and other basic values are at your fingertips when you need them.

Two miniature batteries provide over 1000 hours of operation in normal use; TI's APD™ automatic power down

feature helps prevent accidental battery drain by turning off the calculator after approximately 10 minutes of non-use. With imitation leather wallet, \$40.00*.

Slimline TI-25. Slide-rule power at a small price.

Economy and value go hand-in-hand with the Slimline TI-25, a pocket-portable LCD scientific calculator that has what it takes to handle advanced math. It provides the most-needed slide-rule functions. Trigonometry in degrees, radians or grads. Plus basic statistical power, too: Mean, Variance, Standard Deviation.

Three levels of parentheses can handle up to three pending operations to make your work easier. Four-key memory allows you to store and recall values, add-to memory contents and exchange stored and displayed numbers.

The TI-25 goes far on a pair of miniature batteries—includes APD™ circuitry. Vinyl wallet included, \$33.00*.

See the complete lineup of Texas Instruments slide-rule calculators at your dealer today. There's one exactly right for the work you're doing.
