**INTRODUCING**

**Career Opportunities for graduating students**

30 companies are coming to town to talk to you about working for them. Here is how you can plan to be there.

If you want to know what companies in the New York area, the northeast, and across the country have key positions available now in your field, then this is the opportunity you have been waiting for.

30 companies, both local and nationally based, each with available positions they are looking to fill now, are coming to a major hotel in the metropolitan New York area, April 5, 1979. These companies are looking to find and hire qualified graduating students for positions in engineering, business, management, sales, and electronic data processing.

And now you can meet these companies yourself. There are no letters of introduction to write. You will go through no agency. And you will not waste your valuable time on any job search technique you have used - and found lacking - in the past.

At this meeting (called a Lendman College Conference), you will hear about every position these companies have to offer you in your field. Then, you can pick the companies you are interested in talking to. You will meet these companies face-to-face before you ever interview to give you a chance to learn more about the company, the position, your working environment, all the facts that make your decision about the opening the right one.

You can expect in depth interviews with these companies (they come staffed and prepared to interview and negotiate with you). In one day, you can learn about, and start the ball rolling on more job opportunities than you would normally find in months of looking on your own.

How can we make this offer to you? The simple fact is, that companies pay us to organize these programs. We work to bring companies and students like yourself together in one place. After that, we step aside and let you take over. It is this method - allowing you to interview with the companies you are interested in and have talked to yourself - that makes these conferences so successful.

As for results, last year alone 2789 people found the opening they wanted with the company they wanted through Lendman conferences. That number is growing every year, and now you can be part of it.

There is one other important point you should know. There is no cost to you for this service. As mentioned above, the companies that attend pay the full cost of this conference. You need pay only your personal expenses to attend.

Why not prove to yourself how effective your job search can be by talking with 30 companies you know have positions to offer you. Apply today to attend this College Conference. There is no better way to fully evaluate and compare the many important positions you should know about in your field.

**APPLY TODAY!** To be considered for your place in this important conference, send six resumes, a stamped, self-addressed business envelope for quick reply, and this ad (with your area of interest checked in the Who Should Attend block), to:
