## Mazzetti's bubble pops after miss

ATLANTA (AP) — The script was ideal. Tim Mazzetti, the Atlanta Falcons' rags-to-riches booting bartender here of a year ago, needed only a chip shot for victory in the closing seconds.

Instead, the former Philadelphia bartender, who provided the winning points in five games a year ago, including two field goals in the final seconds, flubbed his role. He missed a 31-yarder with 17 seconds left Sunday and the Denver Broncos retaliated with a 20-17 National Football League crusher over the Falcons.

"My bubble burst. I've never missed a clutch one before. I missed a 28-yarder last year, but it wasn't in the clutch," said Mazzetti. "He just missed it."

"The feeling of loneliness invades you," said Mazzetti. "I got so mad at myself. I thought, 'You turkey, that's a chip shot.' We worked so hard and we deserved to win and I let everyone down."

But Mazzetti, who spoke with the media freely just as he had when his kicks won games a year ago, vowed he would not let the miss upset him.

"If I'm going to let this bother me, I shouldn't be here. If I made a mistake, it was thinking the kick was routine because it had always seemed that way before. But I'll bounce back."

## Nursing building to house clinic

By LORRAINE RYAN  
Daily Collegian Staff Writer

The recently completed nursing building provides more than additional classrooms, offices and laboratories. This newest campus edifice is also equipped with something to benefit student nurses, the University community and area residents—a clinic.

The first-floor nursing consultation center will be used to provide student nurses practical training in identifying with individuals and their personal health concerns, Assistant Professor of Nursing Ruth O'Brien said Monday. The center will draw its patients from the University and the surrounding communities, she said.

"We are trying to replicate what is already available at Ripitan and area hospitals," she said.

She said the center will provide educational programs that will be of interest to people with common health concerns such as arthritis, stress and early child care.

"We have a faculty member who has an interest in stress and relaxation exercises, so we might have a series of programs concerning that," O'Brien said. "I'm sure there will be students interested in that one."

The consultation center will also enable student nurses and their supervisors to deal with people on an individual basis, she said.

"If you have a problem that is physical, we can go over your everyday routine and help pinpoint some things that might be a contributing factor to the ailment," she said. "From there, we can find a way by which you can find some relief."

O'Brien said that only those nursing students of advanced standing, both undergraduate and graduate, will work in the center. These students will have had experience working at hospitals before they work at the center, she said.

The new nursing building will be the site of a nursing consultation center to provide outpatient clinical services to University and area residents.

## Pirates win in 11, lead Expos by two games

MONTREAL (AP) — Willie Stargell slammed a two-run homer in the 11th inning last night, giving the Pittsburgh Pirates a rain-soaked 5-3 victory over Montreal and a two-game lead over the Expos in the National League's East Division.

Rain delayed play for five minutes in the bottom of the fifth, but after the inning was completed, the game was halted again — this time for two hours, 54 minutes.

Pinch-hitter Mike Easler keyed the winning rally by stroking a single to left off Dale Murray, 4-9. Then Stargell lofted his 29th homer of the season far beyond the fence in right-center field.

Larry Parrish's sixth-inning single brought in Tony Perez to boost the Expos into a 3-3 tie. Perez had led off the inning with a single and moved to second on a sacrifice bunt by Gary Carter.

Running hits by Bill Robinson and Bill Madlock had keyed a three-run Pittsburgh first against Bill Lee.

## Giants 3, Reds 1

SAN FRANCISCO (AP) — Darrell Evans collected three singles as the San Francisco Giants trimmed the Cincinnati Reds 3-1 last night, keeping the first-place Reds 1 1/2 games ahead of the Houston Astros in the National League's West Division.

Houston was beaten 4-0 by the San Diego Padres.

The Giants took a 1-0 lead in the first on Evan's RBI single off Frank Pastore, 4-7.

Mike Ivie's third-inning single made it 2-0, and Johnny LeMaster's sixth-inning drive in the Giants' final run.

Ed Whitson, 7-10, gave up a ninth-inning home run to Johnny Bench, then got relief help from Greg Minton.

## Indians 16, Yankees 3

CLEVELAND (AP) — Cliff Johnson and Toby Harrah eached slugged a pair of home runs last night, combining for nine runs batted in, leading the Cleveland Indians to a 16-3 rout of the New York Yankees.

Johnson's two homers accounted for five RBIs.

Ted Cox had a solo homer and a sacrifice fly while Gary Alexander drove in two runs with two singles in the Indians' 16-hit attack.

Mike Paxton, 8-7, held the Yankees hitless and walked only one batter until Damaso Garcia doubled with one out in the sixth. Oscar Gamble led off in the seventh with the Yankees' second hit, a long home to right, and New York scored twice more in that inning on Bruce Robinson's run-scoring single and a sacrifice by Roy Staiger.

Paul Mirabella, 0-4, started and lasted just two-thirds of an inning.

**MEET THREE PEOPLE WHO FOUND CAREERS WITH NSA.**

**COMPUTER SCIENTIST**  
"My objective on graduating from college was to obtain employment with a leader in my profession, NSA fulfilled that objective. The histories of NSA and the computer have been intertwined since the origins of both. NSA continues to be the preeminent in the data systems field — presenting opportunities to be a part of the latest technology being developed and used industry-wide."  
Edward Johnson  
B.S. Computer Science

**MATHEMATICIAN**  
"As an NSA Mathematician I enjoy the opportunity to apply a variety of mathematical disciplines, including many which fall under the heading 'pure mathematics,' to my job. A wide range of sophisticated problems presents a constant challenge to develop new and creative approaches. In fact, creativity is probably the one universal requirement for an NSA Mathematician."  
Linda Shields  
B.A., M.A. Mathematics

**PUT YOURSELF IN THE PICTURE**

At the National Security Agency your future will be linked to the nation's. Whether your interests are in electronic engineering, computers, mathematical research or high priority translation, you will play a meaningful role in the nation's communications security or the production of foreign intelligence. NSA is challenge. NSA is opportunity. □ National Security Agency headquarters are located in the pleasant Maryland suburbs, close to Washington, D.C., Baltimore and Annapolis, Maryland — just minutes away from countless cultural, historical, recreational and educational opportunities. □ Find out more about career opportunities offered by NSA; schedule an interview with us through your College Placement Office. Or call us collect at 301-796-6161. Mr. Bernard Norvell, College Recruitment Manager, will be happy to talk with you. □ National Security Agency, Attn: M32R, Fort George G. Meade, Maryland 20755. An Equal Opportunity Employer, U.S. Citizenship Required.
