Anderson may stop speculation

speculation as he stands on the threshold of announcing his in-

dependent candidacy. The Washington Post reported on official announcement Wednesday.

analysis

The 10-term congressman has said he feels obligated to extend the voters' choices between an all but certain President Carter-Ronald Reagan race in November's general election. Recent polls lend suport to Anderson's claim. A recent CBS/New York Times poll

shows Anderson attracting 18 percent of the national vote in a three-way race, with Carter getting 42 percent and Reagan 35 percent. More importantly, the poll indicated half of those questioned did not find a Carter-Reagan choice satisfactory.

However, getting on the ballot as an independent candidate requires more than a simple declaration, especially when one is leaving a major party as Anderson is doing.

There is the problem of beating filing deadlines for independent Already, Anderson has missed fund raisers, political advisers, himself a "viable alternative." deadlines in Kentucky, Ohio, Maine, organizers and media people. Speaker says Anderson has realistic ideas

Kim Roberts, Washington field coordinator for John B. Anderson and a University graduate; said Friday that Anderson is not a "pre-packaged

Speaking to a group of students on the HUB lawn in an attempt to drum up support for the Anderson campaign, Roberts expressed Anderson's views on the draft, nuclear energy, nuclear disarmament and the political packaging of candidates.

"John Anderson is not a prepackaged candidate," Roberts said, and said Anderson does not rely on media hype to gain support for his campaign, but depends on the grass roots support as a basis for his candidacy.

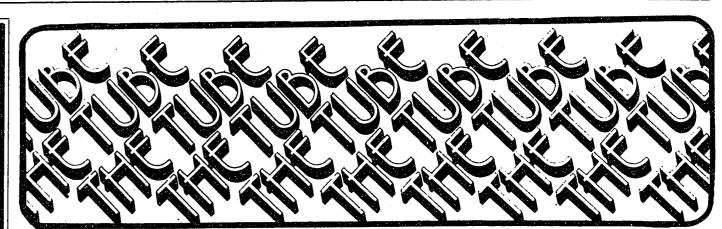

Anderson is not for nuclear energy but is realistic about it, Roberts said. She said he knows that if all the nuclear power plants are shut down, a great many cities would be without

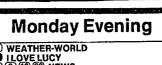

Roberts said Anderson advocates a moratorium on the use of nuclear energy, along with a commission to deal with nuclear waste, until alternative sources of energy can be developed.

"John Anderson is opposed to a peacetime draft," she said. "He is the only candidate I feel that I can live

Anderson's approach to today's world is one of humanity, she said. Roberts' speech was sponsored by Students for Anderson.
