finding the fugitive radicals.

investigating the 6:15 p.m. "accident" but gave no details Reports of casualties could not be immediately confirmed. A steady stream of ambulances left the station

and sped down Peking's main Chang An Boulevard, about a block away from the station. One man in the crowd of several thousand people gathered outside the station said the explosion occurred in an elevator and about 20 people were killed or

wounded. A soldier who overheard the comment touched the man's arm and he fell silent. "What happened? We can't get through,"

bundles of luggage and trying to make their way across the broad plaza in front of the station. The station is at the end of a short side street branching off from Chang An Boulevard and lined with food shops and restaurants. The area is about two miles east of the city's main Tienanmen Square, between the Foreign Trade Ministry building and foreign diplomatic quarters. An unconfirmed report going through the crowd said

the explosion was caused by a bundle of firecrackers. A series of serious fireworks explosions on trains and in railway stations earlier this year prompted a crackdown at the time on persons carrying such items. Police cordoned off a large area in front of the station, but passengers with tickets were allowed to come and go through side doors. Loudspeakers continued to

announce train arrivals and departures.
