There's only one sure way to avoid rape. Avoid the rapist.

The only way to confront a rapist is on the safe side of a locked door.

- If you live alone, be sure your door has a deadbolt lock and a peephole.
- Never let a stranger talk his way in. Demand identification.
- When you change address, change the lock on every outside door.
- Stay clear of deserted laundromats, apartment laundry rooms and out-of-the-way parking lots, especially at night.
- Never put your first name on a mail box or in the phone book, just your first initial.
- Remember, the rapist is a dangerous, unpredictable person. He's not to be reasoned with...just avoided.

Make Crime More Trouble Than It's Worth.

If you see someone without a smile, give them one of yours!
