Braman takes over ownership of Eagles By RALPH BERNSTEIN

AP Sports Writer

PHILADELPHIA — Auto dealer Norman Braman signed the final papers, handed over a payment and in his first move as owner of the Philadelphia Eagles yesterday expanded the responsibilities of the team's general manager. Braman, who purchased the club March 9 for a reported \$65 million, came from his home in Miami to complete the deal and be present for the NFL draft today. The 52-year-old native Philadelphia, saying he was "very impressed" with general manager

Harry Gamble in recent weeks, announced he was adding vice president to Gamble's title. He said the change is intended to Eagles on a day-to-day basis and will report directly to me and my partner, Ed Leibowitz." Debts estimated at \$40 million forced former owner Leonard Tose to sell the team after 16 years at the helm. Braman will own 65 percent of the club and Leibowitz, his brother-in-law, will have the remaining 35 percent.

Gamble said yesterday that he would continue to sign players to the team, although on a tighter rein financially than was felt under Tose's ownership Braman has criticized as excessive the multi-million dollar contracts negotiated by Eagles vice The deal, according to reports, president Susan Fletcher, Tose's daughter, with safety Ray Ellis and defensive end Greg Brown.
