

UNITED TECHNOLOGIES IS LOOKING FOR ANOTHER CURIE.

When you spend four years cooking eight tons of pitchblende down to a single gram of radium, that's perseverance.

Perseverance, and the confidence to know when you're right, and the courage to keep going.

We'd like to find a few more people like that.

We have a lot to offer in exchange. As a worldwide group of companies, with galaxy-wide interests, we have room for tons of raw materials and time for years of patience. And sometimes it

seems almost everyone here's an engineer, right up to the top, so we speak your language.

We're the world's largest maker of helicopters, aircraft engines, elevators, escalators, and air conditioners. There's always something cooking in spacesuits or fiber optics. We're at the center.
